Ladies & gentlemen first of all a huge thanks to all of you for making the effort to come here today to attend this public meeting for the by-election of Howden & Haltemprice.

Many of you will have been hearing what David Icke has had to say, both in the past, and in the recent couple of weeks since a great deal of what he has had to say has been 'supposedly', covered in the British press and the British media we know that that is an absolute farce. Ladies & Gentlemen today for the first time, you're going to hear from himself exactly what he is saying, Ladies & Gentlemen please put your hands together and give a warm welcome to Mr. David Icke.

{applause}
Thank you very much, erm..

The situations I get myself into I am watching the telly a few days ago, and now I'm standing here, that's my life. There's people here from the constituency were this elections taking place, and there's people I know come from long distances, who've been looking at my stuff for a while, so there is a mixture of "What's this madman talking about?", and people who think 'well maybe he's not quite as mad as you think he is'.

This event today is going to be videoed,- it is being videoed at the back there and it's going out on the internet for free in the next few days and please send it everywhere you can so we can get this information out. And for people who'll watch this video, around the world, just a quick bit of background...

A short while ago, the member of parliament for this constituency, called David Davis, who was the Home Affairs spokesman for the Opposition Conservative Party, resigned in protest at the Labour government bringing in the big brother state. And he is standing for re-election on the issue of big brother..that's where I came in.

I was going to leave this election alone, I've never stood for election before and I'll never stand for election again, because it's on the big brother issue, I was interested.

I was going to leave it alone had the Labour party, the government party stood against him, but they chose not to, they said this election was a farce. Now when you put that through the translation unit it reads 'We'll say it's a farce so we don't have to stand, because if we do stand, we'll get slaughtered cause people are sick of this big brother state'. The third party, the Liberal Democrats chose not to stand because they said they supported the stand of David Davis. And David Davis was saying he wanted a debate on the gathering big brother state in Britain.

So I'm sitting there watching my telly, not that much more than a week ago, and I thought OK, I'll give him a debate, because no-one else seemed to be going to do it. So I stood for this election not wanting to win, Oh! My God!, the thought of being an MP! Ooh, I go all of a quiver like, you know?.. this cold kind of thing goes down my spine. Not least cause I don't want to enter that den of iniquity and corruption and mendacity, but also because increasingly, and this is a big part of the big brother state, it's irrelevant. 75%/80% of the laws now originate in this country form the European Union. And a massive chunk of the rest, they're not even getting debated in parliament, they go in through things like standing orders or devolved powers, they're just introduced, "Where did this one come from?", .. "He decided it!", .. Thousands of laws come in every year like that, no debate; parliament is an irrelevance...increasingly an irrelevance.

But the reason I stood, was because over the last, nearly 20 years, I've been investigating, full time, in now 45 countries an agenda to create, No, not a big brother state in Britain, a global big brother state in which Britain is part of it, and I wanted to widen the debate in this election from "It's just the labour government authoritarian and arrogant bringing the big brother state", if only!. And I wanted to point out, nearly 20 years of research, in book after book after book after book, of great detail, source detail, predicting, not because "I'm a prophet", and I'm sitting in a darkened room smoking some weed bringing it out of the ether, from hard journalistic research, cause that's what I used to be, a journalist that was edited, now I'm a journalist that's not, there's a big difference, pointing out what the agenda was and how they were going to manipulate, what techniques they were going to use, to manipulate this agenda into place.

The reason enormous numbers or people worldwide are now coming to my work suddenly over the last few years, is very, very simple, what is in these books is now in our daily experience. And I wanted to bring this to this debate that David Davis said he wanted, so we could look at the bigger picture of big brother and not just the limited view where we are focusing on the oil rag and missing the engineer. We have not had that debate, because he won't have it with me, I tried to go to his 'PUBLIC' meeting with Geldof, Bob Geldof, the other day, I was turned away at the door by this man, I had a ticket booked, it was all arranged, no problem it's a public meeting as long as you have a ticket, I had a ticket. And then this man who, kind of this vision appeared out of the ether, reminding me immediately of a
pound of lard with a shirt, I remember, who has obviously been consuming large amounts of 'e' numbers cause this man was hyper, and told me suddenly, miraculously, abracadabra! it was now a private event. 30 seconds it was a public.. WTHeck!* what happened there?.. so I couldn't get in.

So that, is the background and I came here you see, just to, like I say, just, less than a week ago I came up here to stay last Monday not to 'challenge' David Davis, but to share information with the people here, and him of the bigger picture. I was not saying "I am here to challenge", I was saying "I just want some information" If I get zero votes I couldn't give a shite!, it's of no interest to me who votes for me, it's of interest for me that people have access to information that they are not normally getting and then they can make of it what they will then fair enough I'm off, but at least they've heard it. And, I was saying "You know I commend him for standing", and all the rest of it, good of you, anything that gets big brother out there I'm for... after a few day's here, you know in the midst of it, I'm starting to see a different picture, and I'll come to that as we go through, but before that, we've got to have some background information to put that into context.

The thing is about this big brother state you see, it's that it's happening in country after country after country after country. I had a German film crew come see me a few days ago when I was at home, they were going on about the big brother state being introduced in Germany, it's happening on an outrageous scale, in America, in Canada, in Australia, in Europe. Now, is Gordon Brown, the Labour Prime Minister responsible for all that?.. No!, of course not. So what and who is? Unless you are a 'coincidence' theorist.. I love them they're sponsored by 'Naivety Anonymous' by the way, who believe this is all happening by accident. Good Luck to them, free country - we hope - free world we hope, you've a right to your view. But don't tell me it's happening by accident and then tell me there is absolutely no credibility in anyone's saying...actually maybe it's not.

Gandhi said "An error does not become truth by reason of multiplied propagation, nor does truth become error because nobody will see it" - Mahatma Gandhi.

What is IS, whether you think it is or whether you think it's not, it's still is, and we constantly confuse the limits of our own perception of what is possible with what is actually possible, and because we do that, we reject by reflex action things that are put forward, not because they can't be supported but because they are outside of our limit of sense of possibility.

I did a news conference the other day, some journalist came along, including a guy called Quentin Letts from the Daily Mail, poor old Quentin, he thinks he's a journalist bless him, and he heard a cut down, still substantial version of what I am going to do today, and he then says in his newspaper, he does a real cut down version of the cut down version a basically, you know, he said nothing but then he said after it, all nonsense or course. Now 'Quentin I'd like to be a journalist but I'm stuck with what I am Letts’, has No idea what so ever if what I'm saying is true, why?, cause he not done 30 seconds of research, like all these other journalists into what I'm saying, but, Quentin Letts (blinded eyes) limits of possibility, out here? , anything out here?, nonsense by reflex action no research necessary. And this is how it works all the time.
Gandhi again: “Even if you are in the minority of one the truth is still the truth.” – Mahatma Gandhi. And I am no longer in a minority of one, nothing like it.

[applause]

Remember this?

This is when centuries ago Quentin Letts and his ilk would have reported that anyone who said the earth was round was mad because it’s nonsense of course, because as everyone knows, everyone knows that if it was not possible to be round people would fall off the bottom and all the rest of it you got with the sphere earth is ridiculous. And we are now facing another version of the earth is not flat with what I am talking about today.
Mark Twain:
“In religion and politics, people’s beliefs and convictions are in almost every case gotten at second-hand, and without examination, from authorities who have not themselves examined the question at issue, but have taken them at second-hand from other non examiners, whose opinions about them not worth a brass farthing.” – Mark Twain

That where we get “everyone knows that mate!” that’s where we get ‘official history’ from.

Summed up by Einstein:

‘Condemnation without investigation is the height of ignorance.’ – Albert Einstein.

[applause] and on that, yeah,

And on that criteria we live in a world that is at the summit of Everest in terms of the height of ignorance. “Everyone knows that mate!”, “nonsense of course”.

The world looks bewildering, all these different things, “What’s going on?” and “Why are they doing that?”, “That’s stupid!”, “Well that’s beaurocratic incompetence, what’s happening, why do they do that it’s ridiculous”, “Don’t do it that way it’d be much better,”..“What’s going on?” And more and more people are saying and feeling more and
more ill at ease with the world as it changing around them. When we've got to the point when people are being fined by the authorities for putting a card in their own car saying it’s for sale, and when they park it in a street they’re being fined for trading in the street, when people are being fined for putting out their wheelie bin on the wrong day!, we’re talking about the fine details of our lives that this has got into now.

The key thing to start to understand the world we’re actually looking, as opposed to the one we think we are, is to connect the dots. There are many various and vastly different areas of our lives, vastly different areas of politics and business and banking and all the rest of it, and, left to themselves as dots it’s a bewildering ..“I don’t understand!, why they doing that?” and all that stuff. But when you start to connect the dots, and that’s what I’ve been doing for the last, nearly twenty years, to connect the dots you have to do enormous research on the dots themselves before you can start to connect them; it’s an enormous work, that’s why it’s very difficult for people to see what’s happening because the amount of work it needs to actually uncover it.

And as you connect the dots the picture starts to appear, you start to see that organisations and people and events that appear to be totally unconnected are actually fundamentally connected and you start to realise and you start to see a clearer and clearer picture of what Big Brother really is and why, you start to see the elephant in a living room.
You see the difference between those who’ve not looked at this stuff and those that have, is the difference between seeing ‘that’s why they doing this’ and people saying ‘they’re doing this because of what they tell people they’re doing it for’. Once you connect the dots, you see the white bits between the words were the real information is.

And this elephant in the living room, is that there is a secret agenda going on in the shadows, behind the people that appear to be in power, and this agenda that I have been exposing like a scythe for nearly two decades, before anyone was talking about this stuff, that secret agenda is to create a global, centralised, fascist dictatorship. Where they want to take the European Union, and are doing it at a rate of knots at this time, take that structure globally and that’s what you have in terms of the structure they want. Now to hide the agenda and to justify its introduction, we have ‘the movie’, as I call it. This is the version of events that we are given through the mainstream media, and from politicians and stuff most of whom, the vast majority of whom haven’t got a clue what they’re actually reporting, they just read autocue or take a government statement and regurgitate it and call it news and journalism and so, if you want to centralised power in Europe, because you want that to be another layer, I’ll come to that in a minute, of this global fascist dictatorship, then that’s the secret agenda within the movie you say no ‘it’s just a tidying up exercise to make Europe more efficient’, ‘no it’s not the constitution it’s a treaty’, even though it’s exactly the same virtually as the constitution it’s a treaty so we don’t need a referendum on it so the people can say no. This is how it works, secret agenda; movie provides the excuse for the agenda.
This is the uniform; it seems to be all over the world, the dark suit, the dark suit. These people are promoted Prime Ministers, Presidents, as being the leaders of the world, the people that are making the decisions... If anyone thinks Bush has been running America I’ve got some sea front property in Switzerland you might like to look at, I’ve got a picture!

The dark suits are the here today gone tomorrow politicians, who are the vehicles for introducing the agenda decided in the shadows and those shadow people do not change, or at least those that control the shadow people do not change. As they say in America, those enormous numbers of people in America are now starting to understand this they say "Whoever you vote for the government still gets in", and what they mean by that is those that control governments of any persuasion get in.

In the shadows, this is where it is done, look for the ‘think-tank’s’, which is a massive vehicle for this manipulation in the background.
These people are cardboard cut-outs, they do a job for a while, some of them know they’re doing a job in relation to the shadow people, lot’s of them don’t, they’re just manipulated to bring in certain policies by the networks around them, I mean, have you met a lot of these people? You know, not a lot of brain cell activity in some of these politicians right? Piece of cake to use them to brings things through, what has Bush done for the last nearly eight years? Signed things! He hasn’t decided what’s being signed; he’s just bloody signed it.

Now, because of people like me and other people all across the internet and through other means, books and stuff, and never mind that, daily experience now, it’s becoming clearer and more obvious that there is a elite that is deciding the direction this world and our lives is going, and one of those insiders on the peripheral of the inside, David Rothkopf wrote this book recently it’s called ‘Superclass’.

He is a scholar at the ‘Carnegie Endowment for International Peace’, a think-tank in America that was exposed by a congressional investigation in the fifties by something called the Reece committee, it was exposed this international peace organisation was exposed for manipulating war, particularly the first world war and they got that from the minutes of the organisation. He is also a former director of a notorious organisation that’s is in my books right the way through called Kissinger Associates, which was set up by Henry Kissinger along with a co-founder called Lord Carrington, you might have heard of, foreign secretary at the time of the Falklands war in this country under Thatcher administration. But what he says having, you know, fallback position, we can’t keep denying it, fallback position, Yes, an elite is deciding the direction of the world, but it’s kind of a loose thing and it’s just kind of happening... bullshit! It’s coldly calculated if you go high enough and I’ll get into that.

So this is where the action is, behind the scenes, and it’s a network of bloodlines, I can’t go into it too much cause of time, I want to focus on this election is about but just a little bit of background.
There were bloodlines out of the ancient world they where the Royal bloodlines, they were considered special and all the rest of it, that came out of the ancient world which are overwhelmingly pulling the strings within this elite, some of the ancient advanced civilisations but particularly one keeps coming to light.

What we once called Suma, which historians call the cradle of civilisation, I would question that but that’s what they say, and later it was called Babylon. Now this land is of great historical significance to this network of inter breeding bloodlines, and it is called today Iraq. Yes the Iraq thing was about oil, but not only, yes it was about many things, but not only, but it was also about the historical significance of this land know as Mesopotamia the land between two rivers in terms of the people who were orchestrating the invasion of Iraq.

And these bloodlines moved out, became the force behind the Roman Empire, moved up into northern Europe became the aristocracy and Royal bloodlines of Europe. And when people started then, the people in general, started resisting this overt, in your face royal dictatorship, were they could see the control was, these bloodlines
started moving, still some stayed in the official royal states but most of them moved out of that in to what I call the dark suit professions. This is why when you look at the genealogy of the American presidents since Washington, which has been done by people like the Boston Historical Genealogical Society and stuff, the number of presidents that lock in to the royal and aristocratic establishment of Europe is staggering, in the land where anyone can become president!.. what’s that {sniff}?.. more bullshit, thank you very much.

The real expansion of this network came with what we called Colonial Rule were the British Empire, What did they say? They said ‘the Sun never set on the British Empire so big was it’, but not just the British Empire that was the prime one mind, also the French and others. And these bloodlines where exported all over the world as these European powers colonised the world.

And then we had this sleight of hand called ‘independence’ for these former colonies, now, there’s two basic types of dictatorship. There’s the dictatorship you can see, touch and taste, communism, fascisms, apartheid, the people under those dictatorships know where they stand they can see their controllers, they know they’re controlled. That kind of control has a finite life because people can see what the situation is, it might take some time but eventually the desire for freedom in the human heart will rebel against that. The greatest form of dictatorship is a dictatorship you can’t see, touch and taste. That goes under cover stories like democracy and freedom. And people will sit in one of those dictatorships forever until someone or something points out what the game is, it’s in simple terms, symbolic terms, not even symbolic, it’s how it is, it’s sitting in a prison when you can’t see the bars, were you think that you’re free because you can put a cross on an irrelevant piece of paper every four or five years, to elect in different masks on the same face to continue the same agenda the last lot did. “We’re free honey!” That is the greatest form of dictatorship because people do not rebel against not being free when they think they are. And what happened at what we call independence for former colonies is they moved from a dictatorship that the colonies could see ruled from Britain or whatever, to a covert dictatorship. What they did is they left the bloodline out there and the secret society networks that manipulates the bloodline into power and its agents and gofers into power and they’ve gone on controlling those countries ever since, while the people in those countries think they’re free and their own government is in control. So what we have is like a trans-national corporation and the centre of it, well at the operation level of it anyway is in Europe. So a trans-national corporation has its headquarters and then it has subsidiaries in all the different countries, the headquarters dictates the policy which the subsidiaries then have to introduce and carry out, that’s how this works, and that’s how they are able to introduce the same changes, the same Orwellian transformation in countries all over the world at the same time, because these subsidiary networks of secret societies, the semi-secret groups and other groups that interface between that and the public society, their role is to get control of their countries political system, economic system, media ownership system and therefore move that country in line with the centrally dictated agenda. Now this is what I wanted to talk about at this election, not just, although it’s important, DNA Databases and surveillance cameras that is one important, yes, but it’s an expression for this agenda it’s not it, and if we get caught in that, then we’re never going to stop the Jack boots in dark suits from completing their agenda, and that’s what it is, to enslave humanity globally in ways that I’ll come to.
So this network operates the secret agenda and then finds the excuses within the movie, our daily experience, to justify the agenda being introduced.

And what they do therefore is manipulate both sides in the various situations they want to manipulate. Why? They want, symbolically, to know the outcome of the football match before the kick off.

They’re not interested in states of flux and un-callable situations; they want to know what the scores are going to be before the teams have left their dressing room. Now, if you control one side, you are going to influence the football match you’re not going to control the outcome, to control the outcome you have to control both sides and that’s why when you’re investigating this, you don’t just look at the for’s or against something which is in line with the
agenda, you look at those who are on the other side of the debate because they want to control the debate by controlling them and then by controlling the debate they can control the outcome.

So example, The Bush family and the Clinton family are supposed to be opposing each other politically because ones a Democrat and ones a Republican, why then, as I have exposed in my books and people who knew them have exposed from their own experience, that these families are like that {fingers crossed} and go back a long, long time. During the Reagan father Bush administration, the Bush family and the Clinton family, Clinton was then governor of Arco saw*, were running drugs, a massive operation through somewhere called Almena* airstrip in Arco saw*, which was part of the Iran contra thing. They go back a very long way, from 1980 when Reagan came in father Bush was the real president in terms of power, right through to now in 2008 a Bush or a Clinton has been in the presidency and they are two masks on the same face.

The President is a puppet, controlled by the forces that put him there, that funded him there with cuckoo amounts of money they give. Cheney,
Cheney is more powerful in the white house than boy George Bush, why? Because Cheney is higher in the hidden hierarchy. And this is the point; the higher you are in the hidden hierarchy doesn’t translate necessarily to the hierarchy we see in the public arena with presidents and vice presidents, but the power hierarchy in the public arena does mirror the power hierarchy in the hidden agenda. This man has been running America “Our enemies are innovative and resourceful, and so are we. They never stop thinking about new ways to harm our country and our people, and neither do we.” – George Bush

So if he’s not been running America, who has? This is another way the debate kind of diverts people, I’ve been hearing for the last eight years before Blair left office, “Bush controls Blair”, Bush can’t tie his shoe laces without help, “Bush controls Blair”, no, no!
The reason Blair has not been able to cough without asking through his period in office before Brown took over is because the same shadow people have been controlling Bush as have been controlling Blair and that’s why you can get a cigarette paper between their policies and their actions. Nothing to do with Bush controls Blair, “Bush controls Blair”, he can’t even control himself. And now,

Hilary Clinton, John McCain, Barack Obama stands for change you can believe in. These people are controlled by the same force. Interesting you know when Clinton came in, Bill Clinton in what, ’92, He kept talking all the way through his election campaign “Change, I stand for change”, he’s going on Obama, “Change, I stand for change”, why? Why do they play that game? Interesting, because of the way the system stitches up people, denies them choice, denies them equilibrium, happiness and all these things and what they desire, any point in time the vast majority of people are not happy with their status quo, so anyone who comes along and says “I stand for change”, it’s “oh yeah, anything’s better than this, yes mate, change.” very powerful because of that situation that Barack Obama. His main man and it’s not just in the election it goes back a long time, is a guy called Zbigniew Brzezinski.

Brzezinski was the national security advisor in the Carter administration and he went public in the last 12/18 months or so, admitting that he, in that position, worked to manipulate the Soviet Union to invade Afghanistan because he wanted to weaken the superpower, and in his words something to the effect of “I wanted to create for them, their Vietnam”. It didn’t matter that he did that, except that, that invasion cost a million Afghan lives. Matters nothing to these people, they don’t have empathy, with the consequences of their actions for others like we have empathy. Empathy is a failsafe mechanism for human behaviour, take it away and there are no limits. And as a result of that invasion, he and those that followed him in the Reagan/Bush administration and British military organisations too, trained tens of thousands of people in Pakistan where these intelligence agencies, the ISI, is the CIA Pakistan branch, to fight the invasion and resist it to cause the Russians as much problem as possible. They are the people they are now saying they have to take our freedoms away just to stop them harming us, the people they trained, not just in Pakistan but also in America.
I’ll say no more except this, about his, well I might ‘cause I’ve ‘erm, got verbal diarrhoea but, if anyone thinks David Davis or anybody else, that when this guy David Cameron the conservative leader, comes into government, and as we stand it’s absolutely is almost certain to do, if David Davis or anyone thinks that Big Brother is going to be turned back by this guy and his cohorts then again, you know just down the road from the one see-front property in Switzerland I have another little one you might like to look at, because the agenda does not take no for an answer. You always know when it’s the agenda, because when it’s rejected by the people they keep coming back with it. “And this whole global Big Brother agenda is not going to go any further in Britain or is going to be turned back by David Cameron”, crikey!, you’re having a laugh, of course not! They’ll find the excuses for it and it’ll be business as bloody usual.

This is very true I find: ‘Politics may not be the oldest profession but the results are the same’. 

Now people don’t realise just how simple it is for the shadow group’s, a group in the end, to manipulate who goes into government in a democracy. Piece of cake, this is how it’s done, you might recognise this if you’ve followed politics in Britain for the last 20 or 30 years. Most countries have one or two parties, sometimes one; South Africa but, mostly two parties that have any chance of forming a government. All you have to do to get the party in, i.e. ‘cause it’s not a party thing they’re just vehicles, in other words the leadership in that you want, is to cause mayhem in the party you don’t want, and then people say “well, I don’t really want to vote for these people but look at him, what’s the alternative, I can’t vote for them”, oh!, they’re in.

During the Thatcher era there was lots of people who didn’t want to vote for Margaret Thatcher, but look at the Labour Party, it was in disarray, there was internal conflict, leaders came to power who you wouldn’t let run a fish and chip shop, and people saying “Well I don’t want Margaret Thatcher but look at the alternatives”, so, the Conservatives were in right the way through the eighties. When she introduced ‘Thatcherism’, which was a mirror of
the economics called ‘Reaganomics’ that was being introduced at the same time in America... just a coincidence, nothing to worry about. Then, ‘The Chosen One’ appeared through the ether, Tony Blair, after John Major had become Prime minister. The moment ‘Chosen One’ Blair came to lead the labour party Murdock’s newspapers in this country switched to the labour party and Blair for the first time. And what happened to the conservative party? Internal conflict, mayhem, leaders that people didn’t find credible, & leaders who the public were told not to find credible, what happened? Ten years of Blair, despite lying blatantly, outrageously, grotesquely, about going into Iraq [applause], and despite all that he got in, what? Three times? What were people saying? “I don’t like Blair, but look at the alternative”. And now Gordon Brown has come in to replace Blair without a vote, Blair step down, what’s happening to Brown now? A systematic demolition of him, and his party is happening. Why? Cause Cameron is designed to come in with his cohorts to take the Big Brother state on a bit further. Sorry David Davis, you’re going to have to live with it, unless WE decide we’re not going to live with it ‘cause the power is with us not them if we only took it. [applause]

So the world seems very confusing, let’s see how they do it here, the world seems very confusing a ball of confusion “What going on?” and, the reason it seems like that is because we’re denied, not least through the Quentin Letts of this world, we’re denied the co-ordinates necessary to understand how the pieces fit. The co-ordinates are about where they want to take the world and the methods they use to take us there, once we’ve got these co-ordinates the world looks very different, this election looks very different.

Co-ordinate (1): The goal is a centrally-controlled global fascist dictatorship.
This image;

Can be found in this book the first addition of which I wrote in 1994,

Look at the world as it’s emerged since in relation to that.
Why do they want this structure?

Any dictatorship must centralise power, and must bring the decision making process into the hands of fewer and fewer people, because the more diversity of decision making you have, the less control a centre is going to have over those decisions. Diversity is the worst nightmare of the dictator; uniformity is the means through which they do it. I mean just look at the world from a built environment prospective, no matter where you go in the world it all looks the same, this uniformity is immersing, even on that level. So what they want is a world government which would dictate all major policies to every country. They want a world central bank that would control the whole of the global finance for every country. They want a world currency which will not in the end be physical cash but electronic money only and there are fundamental implications for freedom in that. We are hurtling towards the cashless society “Oh, it’s a good thing, put it on my credit card”, ah yes, if it was done benignly it might be, but it ain’t. It’s the outcome, and the reason for the outcome we need to focus on not the actual thing itself necessarily so much. Today if go into a shop or whatever, and you hand over electronic money, a credit card, and they say “Sorry the computer won’t accept your card”, at least you can still say “Oh well, I’ll pay cash then”. What happens when there is no cash, and that computer says no way José? You have no means of purchase, what does that mean? Total control, that’s why it’s there. They want a world army, and what I am saying is all in these books from fifteen nearly twenty years ago, a world army that would impose the will of the world government. I had a journalist say to me once, “What would they want a world army for? There’ll be no-one to fight.” [laughter] I said “You’re a journalist aren’t you?”, [laughter/applause]. The people to fight will be any group, any nation that did not want to give over the total control of their lives to the decisions of the world government. And I say in these early books, ‘Watch for the development of a European army’, this is what Sarkozy is suggestion now, the French leader. And watch for excuses being made for NATO troops to operate outside their official designated area of the North Atlantic, they’re now in Afghanistan, and the idea is to fuse all that stuff with the UN Peace keeping force, to create by stealth, The World Army. And they want a micro-chipped population connected to a global computer and in the end every child micro-chipped at birth as a matter of course. When I first said this 15/20 years ago people thought it was hilarious, anyone who looks at what’s happening in the world now ‘has got the grin’, as my mother used to say, ‘on the other side of their face’, because micro-chips are being introduced and are being all the time, encouraged for us to take them as a way of operating. They bring it in as a way, you know “micro-chips Fido, you’ll never lose your dog again” then “micro-chip your child you’ll never lose your child again”. “micro-chip yourself, you’ll never lose yourself again” [laughter].

Under this:

They want four ‘super-states’. The first one is the European Union which is the most advanced, came out of the EEC the common market, a ‘free trade area’ .Nothing to worry about.

The American Union which they are manipulating out of a free trade area called NAFTA, (North America Free Trade Association) and the first step of that, and it’s so close to becoming public is something called the North American Union, Canada, Mexico and the United States and they even have their name for a currency to replace the dollar, it’s called the Amero. They want a Asia Pacific Union which they’re now talking about, being evolved out of another free trade area, ‘if it works, why change it?’, called APEC (Asia Pacific Economic Cooperation). And we already now have
an ever more active African Union which came out of the organisation African Unity. That’s what they want, and where are we? Down here, [bottom]. Try getting power over your life sitting under that edifice of bureaucratic control.

I.D. cards? ..... Stepping stone.

This is what they want:

Micro-Chipped People.

I was erm, (by the way, I said on the internet I was going to talk for an hour and a half, I ain’t, I hope that’s alright with you. [laughter/applause] ). Anyway, I was approached by a third party in about ’97 to meet a CIA scientist who was an expert in magnetics, and I met him in his home. And he wanted to meet me because he wanted to get out what was going on and had no way of doing that for reasons that will become clear. He said that he’d joined the CIA to serve his country, because of the way these organisations are compartmentalised, as I’ll come to, most people in these organisations are not trying to follow this agenda at all they’re victims of it. So he told me many, many things. What had happened is he joined the CIA thinking he serving his country and when he got in on the inside in these secret scientific projects which produce technology far and away beyond anything we see in the public arena, he realised that this agenda that I am talking about today was happening, which he never had a clue about when he joined the CIA, and he resisted and refused to work with them. He said one day he left home, and he has missing time, remembers nothing until he woke up on a medical type bench in a room and as he got his faculties back he found that there was something stuck to his chest, and he was opening his shirt as he told me this story and on his chest was a see- through, that’s all I can describe it as, a see-through shampoo sachet type thing and inside was this orangey/golden liquid. These are known within the CIA as ‘patches’, someone’s been ‘patched’. And what had happened in that missing time period is that his body had been manipulated to need the drug in the patch to survive and if he doesn’t get it he starts to die, an agonising death, he knows that’s true because he resisted after he was
patched and he found out they weren’t kidding. These patches have to be replaced every 72 hours and if they’re not replaced, goodbye to him. So he’s got children, I met them. He doesn’t want to die, so what does he do, he serves the agenda because he hasn’t got a choice he feels except to die. And this man said this to me after telling me so much other stuff, tell people, if they say no to just one thing, say no to the micro-chip, because he said, even those that are becoming aware of it, and this is way back, this is like I say back in ’97, and some were, most weren’t, think it’s about electronic tagging, and on one level, he said it is, he said but, the real reason for micro-chipping is because when you’ve got a micro-chip inside you, you can be electronically connected to a computer system that can manipulate you physically, take you out from a distance, that can manipulate you emotionally because the body is an electro-chemical entity, you get hold of the body, access the body chemically or electrically you can do mayhem. And when we feel emotion or think, it is an electro-chemical process. So if you get a micro-chip inside you manipulating that process, they can manipulate the way you think, as you’d say, they can make people aggressive, they can make people docile, either as an individual or on mass, you basically become a robot you would say, Say No to the micro-chip. And this, I’ve not heard David Davis talk too much about this, maybe I missed it.

It’s what Orwell’s ‘1984’ was talking about, I even named the micro-chip, it’s called the vari-chip, although this is one of the less sophisticated ones that they’re introducing in parts of the situations in America. The CIA scientist told me in 1997, when no-one was talking about nano technology, that the micro-chips outside of the public arena in the secret projects where so small they can be inserted in hypodermic needle during vaccination programs, and of course the people giving the vaccinations have no idea that that’s the case.
This is a UPI:

WASHINGTON (UPI) -- The U.S. Department of Health and Human Services said Thursday that it was about to begin testing a new technology designed to help more closely monitor and assist the nation’s homeless population. Under the pilot program, which grew out of a series of policy academies held in the last two years, homeless people in participating cities will be implanted with mandatory Radio Frequency Identification (RFID) tags that social workers and police can use track their movements.

This is now, not some time over the rainbow.

Data from these tracking stations mounted on telephone poles will be transmitted to police and social service workers, who will use custom Windows NT software to track movements of the homeless in real time. In what has become a chronic social problem, people living in shelters and on the streets do not seek adequate medical care and frequently contribute to the rising crime rate in major cities ("you’re homeless, you’re a criminal, it says so here")

Supporters of Sub-Dermal tracking say the technology with discourage homeless men and women from committing crimes while making it easy for the government to help them and all that stuff...

That’s now, and these are some headlines, recent headlines I took from the internet about micro-chipping in the mainstream media.
‘Would a micro-chip keep your child safe?’ In those books I say what they’re going to do is they going to sell it on one level by saying it’ll keep your child safe, it’s now in the headlines, all these years later.

‘Metropolitan police officers to be micro-chipped by top brass in Big Brother style tracking scheme.’ Wouldn’t you feel really comfortable and nice and safe if you knew that your local policeman was micro-chipped, ‘erm.. By micro-chips that can affect them emotionally and physically and mentally I mean, wouldn’t that make you feel good?

‘Micro-chip tagging for convicts’, “Oh, we got so many problems with the prisons they’re all full what do we do?”, “Oh I know we can micro-chip them”.

‘Mexican Officials and Police get micro-chips’, there’s one after the other now.

You know I found that on the internet, I think it sums it up really;

That’s where we are, [laughter/applause] except it’s not Bush it’s the shadow people controlling him.

Co-ordinate (2): The biggest terrorists are in government. [applause]
Of whatever persuasion by the way, I aren’t being party political here, sod the lot of them, I believe in equal opportunity and equal rights and stuff, sod the lot of ‘em equally.

The terrorists, even those that we’re told were terrorists events from external terrorists when the evidence often points to the fact that it was not that at all except that they were the front for it, they can kill horrendously a few thousand people at maximum, like 9/11 and stuff or they can fewer in other events, horrific, horrible etc. Yes, but, these people or the people that control them pepper bombed Bagdad full of kids and civilians and have so far killed and maimed hundreds of thousands of civilians to save them from a dictator. And you know, David Davis, it seems from what I read is in favour of capital punishment, I cannot think myself of a more blatant big brother power than for some guy in a silly wig to have the power over life and death on behalf of the state. And I just wonder, because David Davis voted for the invasion of Iraq, I just wonder if those children and civilians, as they were pepper bombed in Bagdad might just have thought that big brother might have arrived. But No, it’s just about surveillance cameras, and DNA databases.
Oxford Concise Dictionary definition of terrorist; ‘One who favours or uses terror inspiring methods of governing or coercing government or community, hence terrorism.’ I rest my case.

Co-ordinate (3) how a few can control the many by using the many to control themselves. Pyramid power. If you think of Russian dolls, one doll inside a bigger doll, inside a bigger doll. Now think of pyramids, small pyramids inside a bigger pyramid inside a bigger pyramid until there is one that encapsulates all of them.

If you look at any organisation today a government a university a corporation, anything, a school, they’re all structured as pyramids. The vast majority of people that work for those organisations work in the lower reaches of the pyramid were most of the people in any organisation are. But when you get to the top of the pyramid, you find a tiny few people, and they’re the only people that know how all the different contributions of others within the pyramid fit together to form anything but an innocent picture, it’s called in the CIA and organisations like that
compartmentalisation. So there’s people all over the pyramids in government, people say “It’s the government”, well the governments a big thing, no, no. It’s that which controls the government. There’s people all over the pyramids who, they’re not trying to manipulate anybody 90 odd % of them, they’re just trying to earn a living, look after their family, have a nice holiday and all that stuff. But they don’t know how their contribution fits with them and them and them [up the ladder] only the one’s at the top know that.

And these pyramids fuse together, the banking pyramid, the trans-national corporation pyramid, the oil cartel pyramid, the pharmaceutical cartel pyramid, all these different pyramids, media ownership pyramid, I mean you know, the major media corporations in America are owned* by other corporations like general electric and at the top is a pyramid the encompasses all of them and at that point are these shadow families, people like the Rothschild’s, the Rockefellers, the Habsburgs *and others, who are putting down, these apparently at the level we experience them, totally unconnected areas of our life, the same policies. And what those policies are in its foundation form anyway, in their foundation form is, centralisation of power in every area of our lives, because the more power that is centralised the more power the few have over you the many. You go into a bank and hand over a cheque to the person behind the counter, they don’t know what’s happening in the bank manager’s office and what’s being decided, he doesn’t know what’s happening at the next level and he doesn’t know what’s happening the next level, and that’s how it’s possible for a few to dictate the direction of the world with the many working every day unknowingly to do it for them.

And so. One name that has been given to these families it the Illuminati, the Illuminated ones, they know more than we do because they keep what they know from us. And behind the corporations, different masks on the same face it is actually a corporation. Different directors, different front men, not always mind, inter-connected directorships but at the control of the hands of the few.
And it’s the same with politics, Presidents, Prime Ministers, Heads of the world bank, secretary general of Nato, they are perceived to be at the red bit at the top in terms of their own hierarchy, No-no, they’re some way down, I’m probably being optimistic with this. They are there, the here today, come tomorrow people that I mentioned earlier, are there simply to fill the public positions through which those that operate in the shadows above the pyramid dictate the policy and that’s why the policy never changes no matter what government is in power. An incessant centralisation. So when I hear people saying “It’s Bush, Bush is behind it, stop Bush” please! He’s not big brother.

Blimey, if Bush is big brother we got nothing to bloody worry about there then. [laughter] he’s a vehicle and there’ll be another one along soon, because this is how it works, controlling the movie by controlling all sides in the movie through the compartmentalised pyramid system.

The secret society system I could talk about this for ages, but we talk about secret societies we can access in terms of their existence, the freemasons, The Knights of Malta, Opus Dei, the Knights Templar and all these people, and they feed chosen people out of the top of their pyramids
Into the pyramid where the real action is. And often that pyramid they don’t give it a name, I call it the Illuminati and other people call it the Illuminati, but often they don’t give it a name, why? You try investigating an organisation that doesn’t have a name, very difficult. This is how it works, this is Albert Pike. He was a freemasonic god America and his statue is outside the Washington DC police station to this day. This is what he said in one of his writings:

‘Fictions are necessary to the people, and the truth becomes deadly to those who are not strong enough to contemplate it in all its brilliancy, in fact, what can there be in common between the vile multitude and sublime wisdom? The truth must be kept secret, and the masses need a teaching proportioned to their imperfect reason.’

That’s how the network behind the people who appear to be in power, see the cattle population, you and me.

You can also symbolise the network as a spider’s web. You’ve got the spider at the centre, and that’s where the agenda is being dictated from. These different strands can symbolise different organisations and secret organisations, secret societies which answer to the spider. The closer to the spider the organisation is the more
secret it is, the more exclusive it is, and in the end not even in the public knowledge it is. As you come out from the spider you eventually start to have organisations that directly interact with the public, organisations that people that follow politics will recognise, and then there’s a few just back from there which are kind of secret but thanks to researchers they’ve been acknowledged to exist, like one called the Bilderburg group which I’ll get to.

Now within the spider, and this is becoming more and more relevant to this election now, this big brother bi-election, The Round Table was a secret society that was started by a man called Cecil Rhodes who died in 1902. And this Secret society which has been exposed massively in great detail by one of the people called Carroll Quigley who was a professor at Georgetown University, he actually taught Bill Clinton, and he was connected to this round table network and had access to secret papers of that secret society to see what they’d been doing through the twentieth century since they were created. The round table then started to create offshoot organisations which it controls, first came the council on foreign relations, 1921 in America, the Rockefeller family where behind that. Then came the, Oh, the royal international affairs in London actually came before that even, then came the Bilderburg group 1954 and the United Nations and the club of Rome 1968 and the trilateral commission in 1973, and the trilateral commission was created by the Rockefellers, David Rockefeller and a man called Zbigniew Brzezinski who is the man behind Barack Obama who I have mentioned earlier. The Bilderburg group was officially met for the first time at the Bilderburg hotel in Oosterbeek, Holland in 1954 in the May, and every year, although it’s steering committee meets very regularly, every year they have a meeting somewhere in the world of the high and mighty, global finance, business, politics, media ownership, intelligence agencies and the military including the secretary general of NATO. The only place that massive meeting of people in positions of power that dictate the direction of the world will be reported, not what went on their necessarily just the fact that they’re meeting, is on the internet on sites like mine (davidicke.com), Alex Jones, the Rense site and stuff like that and others because the mainstream media who attend it, some of their members, never report its existence. If any other organisation was doing that with those people it’d be reported, not the Bilderburg group. Now Carroll Quigley wrote two books, one was The Anglo-American Establishment and another one a big work was called Tragedy And Hope in which he exposed this from the inside, because he agreed with what they were doing, and as he pointed out in his books, they’re goal was the centralisation of global power with a world government, he agreed with it, he just thought the public ought to know it was going on. This is what he wrote in one of his books The Anglo-American Establishment: The picture is terrifying because such power, whatever the goals at which it may be directed, is too much to be entrusted safely in any group. No country that values safety should allow what the Milner group, (this is Alfred Milner, Lord Milner who took over from Rhodes as its head and sometimes it’s called the Milner group), The Milner group accomplished, that is a small number of men would be able to wield such power in administration and politics, should be given almost complete control over the publication of documents relating to their actions, should be able to exercise such influence over the avenues of information that create public opinion, and should be able to monopolise so completely the writing and teaching of the history or their own period. And he goes on to explain how they were behind the major events of the twentieth century including, including the two world wars. So that is one of the key networks within this stricture. And there’s the Trilateral Commission co-creator now behind Barack Obama.

All that stuff will become relevant to this election as we go along. If I’ve made any contribution to this, then one of the things that I’m most proud of is to have come up with the phrase Problem – Reaction – Solution to describe the most used and the most powerful method of mass mind and emotional manipulation that has been used on us to advance this agenda.
It used to be called the Hegelian Dialectic and I thought Problem – Reaction – Solution would sum it up more succinctly. What it means is, that you want to change society in a way that if you did it openly and had a meeting and said we’ll tell the public this is what we’re going to do, you know that you would get a massive public reaction against what you want. So you don’t do it openly, you play this technique. Stage one you create a problem, it could be a terrorist attack, it could be a war it could be a government collapse it could be a run on a currency it could be credit crunch, rising food prices, rising mortgages, anything that will give the opportunity to install the solution to that problem that will advance your agenda. Once you’ve covertly created the problem you then tell the people through a pathetic mainstream media the version of that problem that you want the public to believe, i.e. Bin Laden orchestrated 9/11, Lee Harvey Oswald killed Kennedy whatever. If we had a journalistic profession, even in any way justifying the name, Problem – Reaction – Solution would fall down, because the explanation would be investigated it would be fine to be wanting, it would be reported to the people this would collapse. Because we don’t have a journalistic profession worthy of the name, the problems created the cover story of the problem is then reported to the people as official history un-investigated and what they’re looking for at stage two is a reaction from the public that says in effect “something must be done, what are they going to do about it?”, fear, outrage, do something, and then those who covertly created the problem, got the public reaction “Do Something”, then openly through changes in legislation offer the solutions to the problems they have themselves covertly created. And what are those solutions? They are changes in society to advance the Orwellian big brother state, and a centrally controlled global agenda.

At the 33rd. Level of freemasonry of the Scottish Rite, that’s the highest official level, they have a motto ‘Ordo Ab Chao’, order out of chaos, Problem – Reaction – Solution. You try manipulating harmony, very difficult; you try manipulating chaos, piece of cake. They want chaos, you see, through Problem – Reaction – Solution we need to switch out minds a bit here. Because of problem – reaction – solution they don’t want crime figures to come down because if they do they can’t offer the solutions to the crime figures which is more control, they want people knifed in the street. [applause] They want problems with food because then they can offer the solution of genetically modified food which they’re doing in this government now, even though the people have rejected it overwhelmingly. They want the problems, they have to have them or they can’t offer the solutions.
This is what Bush said after 9/11.

‘You’re free. And freedom is beautiful. And, you know, it’ll take time to restore chaos and order – order out of chaos. But we will.’ Problem – Reaction – Solution.

This is the Second World War, if you look at the First World War after it was over global power was in dramatically fewer hands than it was when that war started. Nothing changes a society globally or locally like a war. After the Second World War it was in even fewer hands we had the creation of the United Nations we had the Bretton Woods Agreement we had the IMF we had the World Bank came after it. And what they did these bloodlines these shadow people at the top of these pyramids they were behind the British government and the American government of Roosevelt, they were behind Stalin who was one of their front man, remember the thing, both sides, and they funded the Nazi party into power and they funded their war machine. In this book written fifteen odd years ago I expose President Bush’s’ grandfather, Prescott Bush as a funder of Hitler, and the Rockefellers. The Rockefellers paid for a whole floor of a German university for a guy called Ernst Rudin who was Hitler’s race purity expert. The Rockefellers! And The Rockefellers are behind all the organisations that I’m talking about. Now, Prescott Bush was a leading figure in an organisation called the Union Banking Corporation which was one of the Harriman operations in America it interfaced with the European steel and banking empire of a guy called Fritz Tyson who was an acknowledged funder of Hitler. And funded through to Tyson vast amounts of money, this is Prescott Bush, the Presidents grandfather, to fund Hitler. How did they go from the Vinemar Republic when they were taking their wages home in wheel barrows such was the inflation to a war machine that could take on Europe? because of this. And after I came out with it, a few years passed, and then a guy, I think he’s the president of the Holocaust Museum in Florida, he came out publically in America and said the Bush family fortune overwhelmingly comes from funding the Nazis, and even the Guardian newspaper, (Hello, hiya, you alright?, nice you caught up!...) in the last year or two has run stories about Prescott Bush funding the Nazis. And what they were doing is creating the two sides to bring
into conflict, 55,000,000 casualties by the way, into conflict in a war that has lead to the change in the global state. That’s how it’s done.

This is what a Nazi said this, wonder if you’ll kind of recognise this from the last few years:

Why of course the people don’t want war. Why should some poor slob on a farm want to risk his life in a war when the best he can get out of it is to come back to his farm in one piece? Naturally the common people don’t want war; neither in Russia, nor in England; nor for that matter in Germany.

That is understood. But after all, it is the leaders of the country who determine the policy and it is always a simple matter to drag the people along, whether it is a democracy, or a fascist dictatorship.

‘Voice or no voice, the people can always be brought to the bidding of the leaders. That is easy. All you have to do is tell them they are being attacked, and denounce the peacemakers for their lack of patriotism and exposing the country to danger. It works the same in any country.’ Hermann Goering.
Abraham Lincoln said ‘Public sentiment is everything. With public sentiment nothing can fail. Without it nothing can succeed. He who moulds opinion is greater than he who enacts laws’ Abraham Lincoln.

And you could say He who moulds opinion can enacts any laws he wants.

Problem, Reaction, Solution.

This is Hitler justifying the creation, oh, that’s a later one, this is him from Mein Kempf:

‘All propaganda must be so popular and on such an intellectual level that even the most stupid of those whom it is directed will understand it. People can be made to perceive that paradise as hell, and the other way round, to consider the most wretched sort of life as paradise.’ Adolf Hitler in Mein Kampf.

On the basic intellectual level “It’s the terrorist and we got to protect you from the terrorist so we’ve got to take your freedoms so we can protect your freedom! ”, “Oh, That sounds good I’ll vote for him”. [laughter].

Oh! This is another version now.
NO Problem – Reaction – Solution. [laughter], you don’t need a real problem, you just need the public perception that there’s a problem. Weapons of mass destruction in Iraq, No problem, public perception there was, justifies an invasion on a lie. [applause] I love this one:

Invasion Checklist: missiles, tanks, troops, planes, bombs, ships, guns, a reason, a reason, a reason, a reason, a reason, a reason, a reason, come on come on. I’d say let’s have a brainstorm but apparently that’s politically incorrect you have to have a thought shower now, let’s have a thought shower [laughter/applause] true! Bloody true. And because the same people are creating the problem to offer the solution the same people come up with the problem as well as with the solution, it’s kind of strange, this is a picture from 1983 of Donald Rumsfeld meeting Saddam Hussein on behalf of the Reagan/ Father Bush administration, and what was he doing?

‘HI SAD, GOT SOME NERVE GAS FOR YAH.’

Hello Sad’ Nice to meet you mate!.

What he was doing was arranging the shipment of chemical and biological weapons from American corporations to Bagdad to be used against the Iranians, in the Iraq/Iranian war, don’t take my word for it, in 2002 state department documents in America came to light and this a mainstream report of what they said: Donald Rumsfeld, the US Defence Secretary and one of the most strident critics of Saddam Hussein, met the Iraqi President in 1983 to ease the way for the US companies to sell biological and chemical weapons. Including anthrax and bubonic plague cultures, according to newly declassified US Government documents.’
‘Donald Rumsfeld, the US Defense Secretary and one of the most strident critics of Saddam Hussein, met the Iraqi President in 1983 to ease the way for US companies to sell biological and chemical weapons, including anthrax and bubonic plague cultures, according to newly declassified US Government documents.’

When he becomes defence secretary he’s using this. “He used chemical weapons against the Kurds”, Yes, which you give him! Problem – reaction – solution, that’s how it works.

He was on the board of a European engineering giant called ABB in 2000. And at the time he was on the board ABB sold nuclear technology to North Korea. When he became defence secretary he condemned North Korea for having nuclear technology, and these stories, I can’t go on about it all day, these stories I could list forever.

Problem – Reaction – Solution. Like I say, we rejected GM food, now we’ve got a rising food prices and a food crisis as they say, and now this government is saying GM food could be a solution, because like I say, when it’s the agenda they never take no for an answer, they’ll keep bringing it back and keep bringing it back, just like they are with the treaty which is the constitution in Europe.

Then alongside problem, reaction, solution comes, ‘The Totalitarian Tiptoe’ as I like to call it. This works like this; you know you’re going there from the start, but you know if you go there in big leaps the change is going to be so vast that the people are going to kind of ‘look up’ form their television game show and go “Hold on, Honey, honey, what’s going on?”, “Sorry honey, I thought you were asleep”. .. “er..I was”. Lift the head from the game show and they’re going to say what’s going on so they don’t do it like that. They go from A to B and into D, and then maybe to E, they go as quickly as they can as far as they can with each step, but not so far that they get a big public reaction.
That’s how this came about. I exposed the European Union way, way back in those books. And everything that’s in them is happening now. This treaty, this constitution, this centre, it’s all in there. And I have to say you know, when I hear David Davis going on about the European Union and all that stuff, well, like I said, you know, much earlier in this, whoever’s in government introduces the agenda, you know, perhaps I didn’t but I talk so much I don’t when I have said it and when I haven’t, but this is actually worth mentioning. What you notice is, this is how they dupe us in politics. Whichever party’s in government introduces this agenda I’m talking about, whichever party is out of government opposes the agenda. Then we have this farce called an election and every now and again they change sides. Now the government that was introducing the agenda is now in opposition it can’t do anything it opposes the agenda. That which was in opposition opposing the agenda is now in government so it introduces the agenda and so the common theme is whichever government of whatever persuasion’s in power the agenda goes on, that’s why David Davis and David Cameron and the Conservatives when they take over from the current Labour government isn’t going to change a bloody thing. And David Davis, who now is against the European Union centralisation of power, because he’s in opposition, was a government whip that whose job was to cajole members of his party to vote in favour of a Maastricht treaty when the Conservatives were in government which was an enormous centralisation of power in Europe, one thing in opposition, very different once you get into power or when the agenda unfolds. So we started off in the European Union, “free trade area, nothing to worry about, good for jobs”, but as I expose in the books in great detail, or from the start, where we are now and where we are going, because there’s still a way to go, in Europe, was decided and how quickly it was going to get there, and we went stepping stone totalitarian tiptoe to where we are now, and it was always designed to be so.
I talked about the Habsburg bloodline being one of these elite, this elite network. Otto von Habsburg was the man behind and the family behind the Pan-Europa Movement which was the instigator, the instigator of the European Movement that became what is now the European Union. He is still honouree head of the Europa movement, that's their symbol. And one of the key people involved in the manipulation of the European Union into places it is now was a Polish man call Joseph Retinger. Joseph Retinger was one of the major creators of the Bilderburg group, all these things interact. The Bilderburg group has been massively behind the centralisation of power in Europe.

Now, when you know the agenda, the things that seem on the surface to be fine, OK, take on a different complexion. This is from a national newspaper

It’s a map that came out of Europe which is said to be the way they want to break Europe up into regions, because they want the end of a nation state, because they want to break up the unity of a nation state to unit it in* unity resist the power at the centre, they want to break them up. So when you hear for instance that they are, as they have, they have devolved power to a Scottish parliament and a Welsh parliament and if you remember they tried to get English regions as well but they couldn’t quite get that through, that’s the agenda, they’ll come back to that, you watch. The reason is on the face of it in the movie “Oh, it’s to give power to the people”, in the secret agenda, it’s preparing the regionalisation of this country for this. That’s what it’s about, not freedom, but taking it away.
And like I say, in America there’s another European Union immersing so fast, which is coming out of their free trade area call NAFTA and they’re going to call it the North American Union.

So this is what they want, and nation states will be removed in a Europe of the regions.

Now globalisation is exactly what I have been warning about in terms of the centralised Orwellian agenda, all this last, nearly twenty years. And I do ‘cringe’ and shake my head when I see people, often of the left in politics, saying what I’m saying about a global agenda for a centralised fascist state is a nonsense, and then I see them pick up their banners and go “Stop globalisation, Stop globalisation”, What do they think globalisation is? It is the incessant centralisation of power in every area of our lives. It’s the agenda I’ve been warning all this time, unfolding before us and this is a massive part I’m talking about here in the last like 20 minutes, of big brother, it ain’t just surveillance cameras and DNA databases, it’s all of this combined, and the “Labour government in Britain is orchestrating it all globally”, oh please! And this is why I came here to stand in this election to have a platform to talk about, he doesn’t
want to talk about it David Davis, “let’s sort out England first” he said, to someone who asked him a question about it. Well you aren’t going to sort out England, the subsidiary or one them until you’ve sorted the headquarters where it’s coming from.

So we have all these protests against the very organisations that this network has set up to centralise power including the World Trade Organisation, what is that?

It’s in, again, it’s in my books going way back when it was called the Gantt* negotiations it was in my books then became The World Trade Organisation. It has the power to impose massive fines on any country that breaks the trading laws of the World Trade Organisation to defend its own economy. Simple thing, if you want to control someone you must make them dependent upon powers they have no control over. Once people have control over things that affect their lives, they are in control of their own lives, once they are in the hands of forces they have no control over, they have lost control over their own lives. And that’s why, we’re having this centralisation of power taking decision making away from the severe of influence of the people affected by those decisions.
The idea is to tie up every nation and every area the world with co-dependency on some other part of the world so that no part of the world has the independence to decide their own destiny. It literally is like getting caught in a spiders web, how appropriate is that? That’s what outsourcing as they call it in America is, taking jobs and stuff into India and other places and British companies buying up foreign companies, foreign companies buying up our basic needs like electricity and gas and water, that’s what it’s about, taking control over our lives to a point where we have no influence, this is big brother, not some guy sitting there watching some bloody camera screens, that’s just one level of it.

This is being brought in, micro-chipping, totalitarian tiptoe a bit more; ID cards are the stepping stone to that. And this, the taser,

When this came out, the taser, 55,000 volts these release from policemen on their targets, they said “they’re only going to be used”, this is not long ago either by the way, “they’re only going to be used by people trained in firearms”, I said on my website that day, these are going to be given to every police officer. They’re now going to be given to every police officer. Why? Because, I remember a headline form a guy who saw one of these working, a journalist and the headline was ‘Anything You Say Officer, Just Don’t Use That Thing On Me’. That’s what they’re about. You’ve got some brain donor in a uniform who hasn’t got two brain cells to rub together, they’re not all like that, there are...
many honourable exceptions but some are. And you give the 55,000 volts they can legally unleash against you. Big Brother, Bloody Hell!

I saw this ‘Fascism’; you really think it’s going to be this obvious? [laughter] it’s being brought in covertly but, it’s reach the point were increasingly it is becoming that obvious.

The secret agenda and the movie justifying the agenda is what this big brother debate in this bi-election ought to be about, but it’s not. Now, this may not seem in this little section here it relates to this bi-election but it bloody well does, No need for prophecy, it’s written down.

In the year 2000, in America an organisation set up in the ‘90’s by the people who controlled, and control the Bush administration this last eight years, was set up, it was called The Project for the New American Century. And it was created by people who have since become known as ‘Neo Cons’ or ‘Neo Conservatives’.
September 2000 they published this, and it was called ‘Rebuilding America’s Defences: Strategies, Forces and Resources for a New Century’. This is what it said, oh, I’ll come to that.

These are three main people in the creation for the New American Century. Dick Cheney vice president, more power than the President, Donald Rumsfeld, defence secretary at the time of 9/11 and the invasion of Iraq. Paul Wolfowitz, defence deputy secretary at the same time, these are some of the other neo cons.

Michael Ladine connects into the fascist network in Italy, an associate of a guy called Lucio Gelli who ran the P.2 freemasonry lodge that was behind Vatican bank scandal that led to a guy called Roberto Calvi being hung under a
London bridge over the Thames. Richard Pearl, one of the major architects acknowledged in the mainstream media of the invasion of Iraq and the war on terror. John Bolton, ditto, Douglas Fieth, ditto. Jed Bush, brother of the President. William Crystal, editor of the Murdock weekly standard a neo con paper in Washington and one of the major advocates in the media of the invasion of Iraq and the war on terror. This is what it said, that document:

**SEPTEMBER 2000**

* Calls American armed forces ‘the cavalry on the new American frontier’.

* Says that key allies like the United Kingdom are ‘the most effective and efficient means of exercising American global leadership’.

“September 2000. It Calls American armed forces” It Calls American armed forces “the cavalry on the new American frontier”. He said that “key allies like the United Kingdom are ‘the most effective and efficient means of exercising American global leadership’”. That’s not happened has it?

**SEPTEMBER 2000**

'The United States has for decades sought to play a more permanent role in Gulf regional security. While the unresolved conflict with Iraq provides the **Immediate Justification**, the need for a substantial American force presence in the Gulf transgresses the issue of the regime of Saddam Hussein.’

“The United States has for decades sought to play a more permanent role in Gulf regional security. (control) While the unresolved conflict in Iraq provides the **Immediate Justification**. The need for a substantial American force in the Gulf transcends the issue of the regime of Saddam Hussein”. It was an excuse to get in there; they aren’t coming out, no intention as I said from the start.

**SEPTEMBER 2000**

* Calls for a blueprint for maintaining global US pre-eminence and shaping the ‘international security order’ in line with ‘America’s principles and interests’.

* This ‘American Grand Strategy’ must be advanced ‘as far into the future as possible’ and the US must ‘fight and decisively win multiple, simultaneous major theatre wars’ as a ‘core mission’.
“Calls for a blueprint for maintaining global US pre-eminence”, in other words the shadow networks pre-eminence through America, “and shaping the ‘international security order’ in line with ‘America’s principles and interests’.” See before “This ‘American Grand Strategy’ must be advanced ‘as far into the future as possible’ and the US must ‘fight and decisively win multiple, simultaneous major theatre wars’ as a ‘core mission’.” September 2000. Look what’s happened since.

SEPTEMBER 2000
* Says that peacekeeping missions demand ‘American political leadership rather than that of the United Nations’.
* Highlights North Korea, Syria, Iran and Libya as ‘dangerous regimes’ [targets for takeover] and says their existence justifies the creation of a ‘world-wide command-and-control system’.

“So says that peacekeeping missions demand ‘American political leadership rather than that of the United Nations”. Happened, it “Highlights North Korea, Syria, Iran and Libya as ‘dangerous regimes’ [targets for takeover or control] and says their existence justifies the creation of a world-wide command-and-control system”. World Army.

This man, David Frum who is a scholar of an organisation called the American Enterprise Institute which is a neo con operation that fit’s like that into the project for the new American century, was the man who wrote the famous ‘State of the Union’ speech for Bush, I think it was in 2002 in which he said that there was an Axis of evil that had to be targeted. What was that axis of evil? Iraq, Iran, North Korea straight off the pages of the project for the new American century document.
“Spotlights China for ‘regime change’”, this is where it’s leading they want a conflict with China for a massive global problem that will bring in the solution, the world government and the world army to stop it ever happening again even though they created it in the first place. I’ve been talking about this now since the mid nineteen-nineties, the China thing and in two thousand they actually come out and say it. “Saying’ it is time for the presence of American forces in Southeast Asia’. This could lead to providing the spur to the process of democratisation in China.” These people are crazy, but not stupid.

It “Calls for the creation of ‘US Space Forces’ to dominate space and total control of cyberspace to prevent their ‘enemies’ using the internet.” i.e. people like me and others who are exposing this, they’re trying to more and more edit and sensor the internet. “Talks of developing biological”, these are the people we are talking about here who are saving us from terrorists, “Talks of developing biological weapons that can target ‘specific genotypes’ – this may transform biological warfare from the realm of terror to a ‘politically useful tool’.” And this is what it said in that document. When it was saying that there is a problem with introducing this agenda because the people wouldn’t have it, and this is what it said in terms of time scale of this agenda.
“The project for the New American Century document says that this ... ‘process of transformation is likely to be a long one, absent some catastrophic and catalyzing event-like a new Pearl Harbor’. Let’s have that again,

‘This process of transformation is likely to be a long one, absent some catastrophic and catalyzing event-like a new Pearl Harbor’. One year after that document was published, nine months after the people that wrote it came into power in the Bush administration, America had what Bush described at the time as ‘Our Pearl Harbour’.

And everything that has happened since 9/11, that has unfolded off the pages of that document quite demonstrably has been justified by 9/11. Problem, reaction, solution. And no mainstream journalist has even thought of questioning the official version of 9/11. And we are being told by the left in politics, by, often the greens though not all them, I’m talking about the hierarchy, that Bush and Blair lied about everything ‘Bliar’ do you remember the posters? Those two lied about everything except the official story of 9/11, they told the whole truth about that in
term of how it was orchestrated. “Naivety Anonymous hello it that you? I got some customers for you”. [laughter]
And they condemn people like me for having the nerve to raise the subject, “Nutter!”, “Rubbish!”, [sighs Oh God!]

I wrote a book a year well actually I wrote it immediately after 9/11, having researched it for a year. It came out a year to the month after 9/11, it takes the official story apart, it’s a fairy tale, a fairy tale. But it’s been justified, it’s used to justify this and that’s why it happened.

Bullshit! Absolutely, “The official story of 9/11 has just left the room!” [laughter]
Even academics that rubbished it to start with are saying the official story doesn’t make sense. You’ve got pilot organisations that are saying, pilots against 9/11 and stuff, that are saying that there is no way those people who couldn’t fly Cessna’s could do what they did with those planes. Endless people now, there are engineers organisations against 9/11 who are pointing out that those buildings could never have collapsed as they did because of fire and steel.

But no-one investigates it. You know tonight, I think it’s at 9 o’clock on BBC2, we’re going to have another farce from the BBC, trying to explain why the third building on 9/11, building 7 collapsed in a mirror of a controlled demolition. And they’ve taken 7 years and have not yet come up with an explanation for it.

And as a result of 9/11 Cheney said “It’s going to be a long dirty war against the terrorist”. What about a war on terrorism, what does that have that wars between countries don’t have? It doesn’t have an end that you can point to
and say it’s over. How do you know when war on terrorism is over? You don’t, that’s the idea, that’s why they’ve gone for this. And these are the people protecting us from terrorism.

This is John Negroponte the UN Ambassador who was arguing in the UN for the invasion of Iraq and this is what John Pilger wrote in the New Statesman magazine.

“How appropriate that John Negroponte is Bush’s ambassador at the United Nations. This week, he delivered America’s threat to the world that it may ‘require’ to attack more and more countries. As US ambassador to Honduras in the early 1980s, Negroponte oversaw American funding of the regime’s death squads, known as Battalion 316, that wiped out the democratic opposition, while the CIA ran its ‘Contra’ war of terror against neighbouring Nicaragua. Murdering teachers and slitting the throats of midwives were a speciality.” John Pilger, writing in New Statesman magazine.

What did Negroponte go on to be?

The man who was the head of the US operations in Iraq after the invasion, and then head of the whole of US intelligence for a while.
These are the people protecting us from terrorists. These are the people who operate here [above: top] and provide the excuse here [above: bottom]

“We must get Bin Laden” oh, really?

Oh yeah, well why haven’t they got Bin Laden? They’ve got, they’ve got satellite technology that can read your number plate from space. “Oh! I’ve got the number plate mate, I can’t see it! he hasn’t got a beard, he hasn’t got a beard”, can’t find Bin Laden!

This is from a news-night documentary, for people watching this on the internet, it’s a current affairs program in Britain, A guy called Greg Palast is an American journalist and as journalists go he’s well ahead of your normal mainstream journalist. He said “in Saudi Arabia”, this is a quote that was from Michael Springman, US consulate in Jedi, Saudi Arabia that was on the program he was in that position when father Bush was US president. “In Saudi Arabia I was repeatedly ordered by high level state department officials to issue visas to unqualified applicants. These were essentially people who had no ties either to Saudi Arabia or to their own country, I complained bitterly at the time there. I returned to the US, I complained to the state department here to the general accounting office to bureau of diplomatic security and to the inspector general’s office. I was met with silence. What I was protesting was in reality an effort to bring recruits rounded up by Osama Bin Laden to the US for terrorist training by the CIA. They would then be returned to Afghanistan to fight against the then Soviets.” Which I mentioned earlier.
And this is Palast, on the same report on the program

BUSH BLOCKS BIN LADEN INVESTIGATION

“I received a phone call from a high-placed member of a U.S. intelligence agency. He tells me that while there’s always been constraints on investigating Saudis, under George Bush it’s gotten much worse. After the elections, the agencies were told to ‘back off’ investigating the Bin Laden and Saudi Royals, and that angered agents.”

~ Greg Palast, BBC Newsnight

“I received a phone call from a high-placed member of the U.S. intelligence agency. He tells me that while there’s always been constraints on investigating Saudis, under George Bush it’s gotten much worse. After the elections, the agencies were told to ‘back off’ investigating the Bin Laden and Saudi Royals, and that angered agents.” Why? Because the Bush family were connected in to the Bin Laden family in ways I described in my books. And it was one of those, to create the war on terror.

This is the late Robin Cook just before he died; he was one time foreign secretary in Britain.

“Throughout the 80s [Bin Laden] was armed by the CIA and funded by the Saudis to wage jihad against the Russian occupation of Afghanistan. Al-Qaida, literally ‘the database’, was originally the computer file of the thousands of mujahedeen who were recruited and trained with help from the CIA to defeat the Russians.”

~ Robin Cook

“Throughout the 80s [Bin Laden] was armed by the CIA and funded by the Saudis to wage jihad against the Russian occupation of Afghanistan. Al-Qaida, literally ‘the database’, was originally the computer file of the thousands of mujahedeen who were recruited and trained with help from the CIA to defeat the Russians”. As I said earlier, in other words, they were creating the ‘terrorists’ to frighten the people with to justify the introduction of the big
brother state. David Davis, Shami Chakrabarti of Liberty, wake the hell up! Cause they don’t want to know about this. [applause].

Massive connections between the Bin Laden family and the Bush family. And here is the man Zbigniew Brzezinski who is at the heart of what I have just described, he was in the Carter administration, the man behind Barack Obama, change we can believe in.
This is how the whole thing works. One force controlling both sides to create a movie to manipulate the public opinion to accept changes in society that lead to the Orwellian state.

Fear; fear, the four letter word that controls the world, once you get people in fear, they will look outside of themselves for people or organisations to protect them from what they have been manipulated to fear. Fear is the greatest of all mass mind manipulation techniques.

Because of fear we have this introduced, justified by what I’ve been taking about.

This:

This is a poster from Germany in 1934 and that’s a poster from London today. And this is from Sheffield; someone from Sheffield sent me this, this is from Sheffield Bus Station.
Every bus tram, oh no, let’s start from the top. ‘Spit And Run, You’ll still get caught DNA. Ooh I! Every bus, tram and interchange has DNA testing kits, spit at the staff and you could be traced and prosecuted even if we don’t know what you look like. And you’ records will be on the DNA national database forever’. “We’re free honey”. [laughter]. I love it! “Did he spit?, get the DNA tester”, What you talking about?!?! Here we go,

Help me find and kill the terrorist, tell on your neighbours, tell on friends, tell on your family

“Hey there’s some meeting going on at the Willerby Manor Hotel, I don’t know what’s going on I think you better got over here quick” [laughter] Yes, you might bloody learn something, get over. [applause/laughter].
I promise never to question authority, I promise to never bring up my rights.

Stop asking questions! They’ll all want to do it.

Quiet! Shuddup!
But you can have free speech.

There you go, No problem! [laughter]

Free speech zones, what’s that about? Free speech zones, “You cannot say what you want here but you can say it there”. [laughter]

“I’ve got a uniform on so I haven’t got a brain”,

The internet is fantastic for spreading information but they’re trying to put that, er, edit that and sensor that as I say ‘cause that’s the bad side of the internet for them. But the internet is magnificent t you want to track people and track what they’re doing and stuff.
This is being justified in the same way. And this is Hitler, I was going to say this earlier but it’s come later, Adolf Hitler proposing the reason the Gestapo had to be created.

“An evil exist that threatens every man, woman, and child of this nation. We must take steps to ensure our domestic security and protect our homeland.”

I think I’ve heard that somewhere before:

And now we have a homeland security, ‘homeland security’ has suddenly become a name of departments and shadow departments are homeland security, it’s like I say, that’s what it is.

Ok, the big brother bi-election. I do go on and I probably will a bit longer now, erm, quite a bit longer yet actually [laughter/applause]. There is, now you see, when you’re going to control debate, I want to say this because you know, I want to keep this within the bounds, not exaggerate, make bloody wild bloody claims that haven’t been investigated.
I’m not saying in this little bit that I’m going to talk about now with relation to this bi-election that David Davis and Shami Chakrabarti the head of Liberty, bit like the civil liberties union in America, I’m not saying they are in full awareness of what I’m going to talk about now. They might be, I have no evidence that they are, I’ve only been investigating this since I started to realise this election was not what it appeared to be, and I’m not saying that they know but, you see the thing is that, there’s different ways of putting people into places that suit you. If you’ve got someone of a certain mentality and you put them in a certain place then you don’t have to manipulate them because that mentality is going to play that out the way you want it anyway, they haven’t got a clue that actually they’re being manipulated, but I don’t know. It may be one way it may be another. But what you get from these two who have become the twin pillars of anti-big brother within the establishment, If you pick up any newspaper or turn on any television news bulletin now that involves a big brother type story they will quote this lady or because of this election they will quote David Davis who’s now become the Mr. Anti-Big Brother. However, it’s Anti-Big Brother in an incredibly limited way which limits the scale of the debate if you can hijack the debate so that these things I’m talking about today do not enter the debate, and I’ll tell you this, although it’s not appeared in mainstream media, it has to be ten foot high with glowing bloody neon lights before the Quentin Letts’ of the world go “Ooh, What’s That?”, but outside the public arena and getting very close to it there is a, I really can’t exaggerate this too much, a massive awakening going on all over the world of people among the general population who are starting to see this stuff and become aware of it. And if you are behind it what you want to do is to hijack that debate about this Orwellian transformation from those with the bigger picture you want to pull it into those who are only talking about the little picture, cause in doing so you limit the debate and you hold the walls on this stuff we really need to know about, and the more I look at this election, the more I see that all over the place. One of the people that’s been up to this constituency to support David Davis in his campaign against big brother is a Tory MP called Ed Vasey.

Ed Vasey is an original at the foundation signatory on the statement of principles of an organisation called the Henry Jackson Society. Henry Scoop Jackson as he was called was a American democratic senator who had a view of the world that mirrored that of the neo cons in the Bush administration that I’ve been talking about. People think that
because they control the republican administration now in America they must have been spurned by the Republican Party, no, no! Many of them, including Pearl and these people were aids to the democrat Henry Jackson before they jumped ship to the Reagan/Bush administration in the 80s and then got the power to take over this administration. So Henry Jackson represents everything the neo cons stand for which is, as the Henry Jackson society talks about, if necessary taking military actions to impose democracy on countries that they say are undemocratic. And for what that means see the invasion of Iraq. Ed Vasey, like I say was an original signatory and he is a neo con as they call it a neo conservative. Now what is a neo conservative connected to the Henry Jackson society, which as we’ll see in a second fundamentally connects into the project for the new American century in America and the American Enterprise institute which is their sister organisation, what is he doing suddenly opposing big brother when his network had created the problem which is justifying big brother?

These are the international patrons of the Henry Jackson Society, Richard Pearl, Douglas Fieth, Crystal; William Crystal, Robert Kagan, Crystal and Kagan were the co-founders of the project for the new American century that produced that document which has played out ever since, in death and slaughter and conquest which has justified the introduction of the big brother state. They are involved fundamentally with the Henry Jackson society, and Ed Vasey comes up to support David Davis against big brother? I think there’s more to know here.

Also in the Henry Jackson society James Woolsey, project for the new American century, director of the CIA. Sir Richard Dearlove, head of MI6 across the period of the invasion of Afghanistan and Iraq. And this guy, Irwin Stelzer, head of the Rothschild bank at one time, Scholar at the American Enterprise Institute and now with another neo con offshoot called the Hudson Institute and David Davis is being paid by both the Hudson Institute and the American Enterprise Institute to speak at their events. [applause]

Coming up to this constituency before the polling on Thursday is this man Michael ‘I am a neo conservative (from his own lips)’ Gove, another shadow minister in the Cameron administration, conservative administration. He was also an original signatory to the statement of what the Henry Jackson society stands for the statement of principles as
they call it. And he’s coming up, like Vasey from the same organisation to challenge big brother for David Davis. This man’s talking on behalf of David Davis colonel Tim ‘I support Davis’ Collins who became famous for his military operations in Iraq. Guess what colonel Tim ‘I support Davis’ Collins put his name too? He was an original signatory to the statement of principles of the Henry Jackson Society which connects into the project for the new American century and the American Enterprise Institute in America that orchestrated the invasion of Iraq and a war on terror which is being used to justify the big brother state. Patrick Mercer, Tory MP, been in this constituency supported David Davis against big brother.

He is a consultant for Blue Hackle which is one of these private army security organisations which connects with others to create a connection of private armies that are being paid by government to operate in places like Iraq. He went on a fact-finding mission to Iraq paid for by an organisation called Hart that produces and uses the very big brother technology that David Davis is saying we’ve got to stop. He was paid, this is this guy, he was paid with his expenses and his flights and his hotels and everything to go on a fact-finding trip to Pakistan and Afghanistan by this ‘security’ organisation called the Saladin group. And this is from Saladin’s website, this is what they do, just part of it:

‘Saladin can provide surveillance services to organisations and individuals in order to gain evidence during an investigation. Saladin staff have many years of experience in covertly following surveillance subjects to obtain information on their movements, activities and contacts. This includes both mobile surveillance in vehicles and static surveillance in a fixed position.’

‘Saladin can provide surveillance services to organisations and individuals in order to gain evidence during an investigation. Saladin staff have many years of experience in covertly following surveillance subjects to obtain information on their movements, activities and contacts. This includes both mobile surveillance in vehicles and static surveillance in a fixed position’. Patrick Mercer? Connected to these organisations was in this constituency a few days ago to support a challenge to big brother?

And the freedom site set up by David Davis wasn’t set up by David Davis at all, It was just his address suddenly appeared on it. It was originally set up by this organisation ‘Fleishman Hillard’* who are operating worldwide and among their specialties increasingly is manipulating countries to accept identity cards. This guy from this organisation, Paul Borg*, he was the man who actually set up the David Davis freedom website. And this is a little start of an article in the Independent on Sunday, A spin doctor Kevin Bell, he’s a major executive of this Fleishman
Hillard’. A spin doctor behind David Davis and his much vaunted freedom campaign against the creeping state surveillance is an influential figure in the world wide promotion of identity cards the Independent on Sunday can reveal. I tell you what, I’m Bloody glad I decided to come here! I really am [cheering/applause].

And so what we have is now a twin point of everything to do with Big Brother in terms of opposition between David Davis and Shami Chakrabarti. Shami Chakrabarti was a home office barrister from 1996 until September 10th 2001, the day before 9/11 when she became head of liberty. She is an alumna of the British America project described as a junior Bilderburg which was created to promote British/American relations and is sponsored my Monsanto [booing] and a stream, a stream of American corporations. She is a governor from the Ditchley foundation which you’ll find in this book fifteen years ago, and it is connected into the Bilderburgs and that network we saw earlier, and that was created to promote British-America relations. Now I’m not saying she’s knowingly manipulated I don’t know that, I’m not saying it’s not true, I’m not saying it is true, I don’t know that. But what we’ve got here is the manipulation of a situation in which establishment figures, because whatever she might say, she’s an establishment figure and so is David Davis, establishment figures are hijacking, for whatever reason the big brother opposition that is being introduced by other parts of the establishment. And as a result, narrowing the debate so people like me and the information that I’m talking about today, don’t get access to it, ‘Let’s just worry about England first’.

Somebody who’s here today, who was canvassing a little bit yesterday for me, came across David Davis synchronistically, asked him about the Bilderburg group, and according to what she tells me, he said he doesn’t know anything about it, and could someone send information. Well he obviously doesn’t talk to George Osborne, the shadow chancellor and as things stand at the moment the next Chancellor of the Exchequer of this country in control of our finance or as much as we do control our finance now. He was at the Bilderburg group meeting a few weeks ago in Washington and that’s the third he’s attended. And he was asked by someone whose been supporting me in this constituency, David Cameron when he was here a few days ago about the Bilderburg group and he said there’s nothing to worry about basically, “if it was important I’d want to be there”, he said. Well, stick around mate, your chance will come, don’t you worry.
So this big brother bi-election is not what is seems and when we’re talking about limiting the debate, my goodness me! It’s been limited in the time I’ve been here, they don’t want to talk about any of this stuff and when you talk to it to the media of course you’re a ‘nutter’ and you’re all pushed aside, this is what it’s about, controlling the debate so what do you do then? You control the outcome.

Yes, I tried to get into a David Davis/Bob Geldof public presentation in the Hull Guild Hall the other day, I wasn’t going to cause trouble I, I went along I had got a ticket a constituent in this constituency had got me a ticket, it was a public one as long as you had a ticket, and I turn up, I just wanted to listen what they had to say. I’m a researcher, I want to know. If I got a chance to ask a question, great, if I didn’t well equally great I thought at least I go to see what they go to say, and then suddenly, you know, the pound of lard with a shirt on came over, hyper active and boom!, suddenly a miracle happened and it became a private event. It’s kind of funny because this is the guy who stops me, his names Andrew Percy he’s a prospective candidate for Goole I think or that constituency and this is what he said after the Geldof meeting in which he stopped me attending: “Sir Bob came to speak at a gathering to the people across East Yorkshire about the erosion of liberty and freedom in the UK in recent years his speech was brilliant and I particularly like the extract below which talks about the loss of our freedoms and privacy in recent years.”

compartmentalisation of the mind.

And while this is going on and this level of debate is going on global big brother is expanding its power by the hour now, as control goes further and further away. And it’s going into the fine detail of our lives. We’re now having people looking through rubbish just to see if there’s any evidence of activity of terrorist activity.
You know, you can’t even relax when you’re putting your rubbish out in the bin. And then there’s this thing:

Traffic Wardens

Ah! This is an interesting one. A few weeks ago, well a few months ago now, I had a letter from a traffic warden somewhere in Britain, he’s still a traffic warden so I won’t say who it was, and he told me a strange story and said I might find it of interest. He said he was called in, he’d been a traffic warden for a long time, a nice chap, and he said he was called in by the boss who gave him out of nowhere three cards. One was a card that gave him authority to be a traffic warden fair enough, but the second cared was what they call a ‘pace’ card and on it are the words you have to say, that a policeman says, to arrest somebody ‘You do not have to say anything but anything you do not say’, that one, it’s called a pace card. And the other, the third card was his authority to enter private property. ‘Course he’s going “Hold on a second! What’s going on? I’m a traffic warden, I give tickets for parking, I don’t want these?” and the boss said go away, put them away until further notice. A few days later he’s with a group of traffic wardens near the police station and an old friend of his, he hasn’t seen for a while, he was a policeman, walks out of the police station with a briefcase, walks over and makes conversation with the traffic wardens you know there and towards the end he said to the guy who where old friends, he called him over, he said I want to tell you something, about four or five times in this conversation the policeman said don’t tell anybody else don’t repeat this whatever you do. This policeman said that he was, had been designated to do a job in that county and that there was someone like him in every other county. He said his job, and his fellow officers around the country, was to prepare for a coming war, that this war was expected to trigger enormous civil unrest in Britain and that ‘the military’ and the mainstream police force would be overwhelmingly focused on dealing with the civil unrest, therefore people like traffic wardens, private security firms and CCTV operators etc where going to be brought forward to do the jobs that the mainstream police force were currently doing but would be tied up with over this civil unrest. He said that’s why he would be given these cards. A few days after this letter arrived, and I talked to him and he sent me the cards and I saw them and I sent them back so he wouldn’t get found out, I picked up the newspaper to see that traffic wardens were being
re-designated ‘civil enforcement officers’, and being given greater powers. This is the world we’re looking at and these things that come out of no-where “Oh! Where did that come from?” are manipulated and manipulated behind the scenes until they come to the surface and apparently out of no-where. Not out of no-where at all.

So, the elephant in the living room is there when you connect the dots it isn’t there when you don’t so they don’t want the dot’s connecting. And this is what it’s about, you know why it’s gone into the fine detail of our lives and you can’t put things in your car saying it’s ‘For Sale’. It’s the same principle, cause this is a mind game in the end, it’s a mind game. If you can control peoples’ mind and perceptions you can control their actions, it’s a mind game. Everything’s up here. The idea is to do the same on the population as a whole that they do on laboratory rats and mice in these laboratory mazes.

Were they put a mouse in a maze and if it goes down certain channels within the maze it gets an electric shock. After it’s been shocks a few times, you can take the electronic equipment away and that mouse will still not go down that channel. What you’ve done is program the mouse into acquiescence to do what you want them to do to become subservient to what you want the mouse to do.
Now what is happening now, is in all these areas of our lives right down to the finest detail now, as I say, we are being shocked in various ways no matter what we do. Traffic cameras, Surveillance cameras, Cards in windows, rubbish bin out on the wrong day: Fine. Eh! What it’s doing is creating a situation in the collective mind were, I guess you could describe it as “Anything for a quiet life”, subservient. And the tasers with the police are fundamentally connected to the same thing, “I know you’re talking rubbish officer, I know you’re wrong, I know it’s outrageous but if I do anything to resist that you’re going to use that thing on me so I’ll go quietly”. We’re laboratory rats or mice in a maze. And what we need to do is take the shocks and still go anyway [applause]. I’ve spent twenty years being ridiculed, being abused, being misrepresented, being made fun of, being laughed at in the street, having my kids laughed at in school, I’m still frigging here. [cheers/applause/whistles] .

Political correctness, in Orwell’s 1984’ book he had a thing called newspeak, you know and he said you know, when you’re at this level of reality, there are many other levels of reality, we won’t go there today though I do. But at this level of reality we think in words, you ever thought, you think it in words. When you reduce the language available through political correctness and now this ‘U R SPK’ in text language and stuff, you are as time passes, what we call time anyway you are suppressing the amount of words to describe your own thoughts, never mind your own views. This is what political correctness is about and also playing minorities off against each other, and the left in politics has been played like a violin. “I’m from the left, there’s me heart right there![points to arm]” ” and here’s me sodding brain here[point to ass]”. [laughter]. There are a lot of genuine people on the left, what you call on the left, it’s all al load of crap anyway, right, left, it’s all part of the same scam, doesn’t matter. You go far enough right you meet yourself on the left coming back, the same bloody thing. [applause]. There’s some genuine people that want to do genuine things but they’ve been scammed and one of the scams is supporting political correctness “You can’t upset somebody!” Well maybe they deserve to be upset; I’m upset that I can’t have my view. OK, that’s not
politically correct, you know, I’ve got a hand that’s completely knackered through arthritis right, the only thing I can do with my hands is type with those {two} fingers, very little else right. It’s crippled, my hand is crippled, you want to tell me my hand is crippled, I don’t have a problem with that, you know why?... It’s bloody crippled. [applause]. But NO! I’m Digitally challenged! [laughter]. You know what I said earlier, some people would have got it, maybe some people didn’t. When I talked earlier about you can’t say brainstorm you have to say thought shower that is actually being introduced by some companies, I’m not kidding it’s not a joke it’s happening. And what it’s doing is playing minority off against minority so for instance, basically, do you remember that image where all the countries where tied up in that web and stuff, they want to do that with minorities so everyone polices everyone else. This is the idea; the few can’t police the many, they have to get the many to police each other. That’s what they do, and so for instance, if you’re a gay person, good luck to you, I mean, I have a philosophy on life ‘ do what you like so long as you don’t impose it on anyone else’, that’s it, that’s my philosophy. [applause] anyway, what a gay person can say “That’s not politically correct, I’m taking you to a human rights tribunal” for saying this about me but then he can say something about a Black person or he can’t say something about a Jewish person, he can’t say something about an Islamic person the Black person cannot say something about the Islamic person so it goes on where everyone is policing everyone else. In Canada they’ve got a massive human rights scam going on, and one of them is a gay organisation that took these people on the human rights commission over political correctness and now a woman is taking gay people to the same human rights commission or a human rights commission because they won’t let women into their gay club. [laughter] You know, this is how it works right? This is what I’m talking about. It’s nothing to do with freedom it’s to do with control and by the way, you know that guy, Sir Trevor Phillips is it? No not Sir Trevor Phillips CBE or MBE or something (actually OBE) He’s head of the human rights racial discrimination organisation that the government runs right (chairman of the commission for racial equality (CRE)). Well I wrote to him because I came across this thing and it said if you have any evidence of racial discrimination right, write to the racial equality commission, it’s called something else now, bigger chair, more money, same thing, and if you want to report evidence, cases of racial discrimination and we’ll investigate, right? So I write to him and I say two things first of all, I am reporting the British Royal family as the most racist institution on the planet because not only do you have to be white in effect, you have to come from one bloodline and have to come from, well at least officially, one religion. I want this investigated and I said to Trevor Phillips, Oh, and by the way as head of racial equality why did you accept an honour from the queen, it’s an MBE or CBE or something, from the most racist institution in the world? And I got the bullshit letter back from a lawyer completely avoiding the whole question because of course they had no-place to go. The bottom line was, “We don’t choose to investigate this thank you very much”.

I love this one:

[laughter] That’s a politically correct sign, it’s perfect, there you go, at the bottom if you can’t read it at the back it says, ‘Also the bridge is out ahead’. [laughter] That’s where we’re going.

Now, I’ve got to get this one, Now, you know, the theme of money. What’s that got to do with big brother? “What’s that got to do with big brother? It’s got nothing to do with big brother.” You know “There’s no surveillance cameras
on the pound what’s going on?” “David Davis hasn’t talked about it!” This is one of the greatest aspects of big brother. Let’s just analyse what is big brother. Its control of the very few of the rest, now, what’s the greatest form of control on this planet? Money. And you ask the question, people don’t ask these questions, I’ve asked economists this question they can’t answer me, what is money and who creates it? I’ve asked who creates it. “ooh, The bank create it”* “The government create it”* No!, first of all there is no money well not in the physical way you think. Money is whatever you are programmed to believe its worth. Money is figures on a screen, that’s it. When you go into a bank and you ask for a loan or mortgage or something, say £50,000. Much more these days £50,000. What does the bank then do? It types into your account £50,000, that’s it. It doesn’t print any money it doesn’t mint any coins it doesn’t move any precious metal a single sodden inch. It just types into your account £50,000. From that moment you are paying interest on £50,000 that has never, done not and will never exist. And to get that none existent £50,000 you have to sign over wealth that does exist, your house, your car, your business, your land and if you don’t pay back through circumstances none of your creation, not just the principle but the interest on the loan, then they get your land and wealth that does exist and your house because you’ve not paid back money that doesn’t exist. That is how the money system works because of this. The same force that I’ve been talking about has controlled the banking system, the pyramid within pyramid and they’ve controlled the political system and therefore laws have been passed, fractional reserve lending is one name for them, that allows banks to lend at least, and it is at least when you follow the trail, ten times what it has on deposit. So every time you put £1 in a bank, it can lend £10 it doesn’t have to someone else. And once it’s given you the £50,000 you then might go and put in another bank. The other bank now has the right to lend ten times the £50,000 you’ve just got from this bank. And this is how it all works. Now, what’s the difference between an economic boom, prosperity and all the rest of it and a credit crunch depression, economic depression? One thing and one thing alone effectively, the amount of money in circulation at any time. Who controls that? The private banking cartel on their decisions on how many loans to make, called credit which theoretically puts buying, exchange rate, means of exchange into circulation. The more they loan money, the more money is circulating, the more money there is to buy things, the more things need making, everything starts to expand. People tend to get into more debt when they are in a boom because they’re confident they’ve got lots of orders at the company, their jobs strong, so we’ll have two holidays, we’ll have a bigger house, we’ll have another car or a bigger car. That in the banking system, and this scams being played for centuries, what economic correspondents earning ridiculous amounts of money whatever they’re paying them it’s too much, they call this the ‘economic cycle’ as if it’s some natural phenomenon. What happens is, fishing rod out, the banking cartel keep interest rates low, enticing people in, makes loads of loans, reduces the criteria by which they will give a loan. Lots of money in circulation, people in more debt and here’s the point. You know when you pay off a loan in the theory of £50,000, the bank creates, at least in theory on your computer screen £50,000. But you’re not paying back £50,000. You’re paying back £50,000 plus interest. The interest on the £50,000 has not been created, it never is, therefore by design there is never enough money n circulation to pay back all the principle and interest on the loads outstanding. Bankruptcy, losing your home is built in on purpose. So [applause]. So out goes the fishing line, and then it starts being reeled in. They create an excuse for a credit crunch or a problem and so what do the banks do? Co-ordinate it through the system of pyramids within pyramids, they start taking money out of circulation. They raise the criteria for giving loans out which they are now, they raise interest rates or whatever they need to do to take money out of circulation. Now as they take money out of circulation there’s even less circulating to pay back all the debt that was created when they put loads of money out there, so people start in massive amounts losing their homes, their jobs, their businesses, their land, their processions. And so we move over to the depression, the downturn, the recession, and then they start trawling from the people the wealth that does exist because they, because there’s not enough money in circulation, nothing to do with them, they can’t pay the none existent money back. And this economic cycle has been played for centuries, and it has sucked out of the people the real wealth into the hands of the few. And that is such a fundamental part of big brother because it’s a fundamental part of human control. “Are you listening David ‘bloody’ Davis!”

[applause]
I’m sorry if I’m going on but you’ve come so far I want to give you everything I can today, cause all these things connect and we need to know about them. If you want a world government which controls everything on the planet what do you need more than anything else? You need laws that everyone on the planet has to obey.

You need ‘International Law’ my goodness me, all the time ‘International law’ “Good evening, International Law, here is the news, International law, International law”, that is the creation of the laws that the world government is intended to introduce, because International law will be how that

Controls everyone, and if you go against International law that’s why the world army is there to intervene. International law, International law.

“Global warming”, [laughter] the carbon con. This is a cracker, this is a cracker you won’t hear David Davis and Shami Chakrabarti talk about this, in fact you’ll hear them talk about the opposite.
I talked earlier about this network, and one of that network is called ‘The Club of Rome’, set up in 1968, people like Henry Kissinger, by the way Henry Kissinger massively part of this over the decades, he’s involved in all of them, and he’s involved in the club of Rome and he connects into the Rockefellers and all the people I’ve been taking about and it’s job has been to manipulate the environmental movement.

In 1991 its founder, the founder of the club of Rome, Petsche was quoted as saying in a club of Rome document, as saying when they where, in effect, looking at how to do this manipulation, he said ‘In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill.’ Here’s another member of the club of Rome:

[laughter/applause] And that’s why the official story of the reason for climate change, ‘carbon emissions caused by humans’, is as much a nonsense as the official story of 9/11. It is a problem and a solution [applause] the solution is international law, more and more taxation to save the planet, more and more imposition of the big brother state to save the planet. Now I’m not saying that pollution is a good thing, I’m not saying that, but if we’re going to get street wise we need to understand that it’s not causing climate change, what!, you know having researched this thing for twenty years, there’s a little thing you start to learn about this guy Al Gore, if he’s involved it’s a scam. End of story
by the way, end of story by the way, it’s a scam. [applause] and of course for his inconvenient truth ‘documentary’, let’s just re-designate what documentary means that criteria, he was given the Nobel peace prize and the Oscar, why? Because this network controls that, they don’t control every Oscar and the rest of it but if they need someone to get one they can make sure they get one. Same with the Nobel peace prize, Kissinger won the Nobel peace prize, a bloody war criminal [laughter].

So, what we’ve got as a result of all this manipulation ‘Al Gore’ is, you know if it’s a scam as well because Madonna’s on the stage singing about it right [laughter], this is the global warming survival handbook going with the live earth concerts, you know orchestrated with Al Gore. David De Rothschild wrote that, very good, I’m sure they care about the planet as they’re lending us money that doesn’t exist and trawling the wealth as a result of us not paying it.

Now there’s a thing they say about computers ‘crap in, crap out’ right? Put garbage into a computer you get garbage out that’s how the computer models came up with global warming.

International law is where it’s leading and this is the cause of global warming.
Stands back in amazement! [laughter] “You mean the Sun has an effect on earth temperature? Are you kidding?”

What happens is the sun goes in cycles, it generates what are called ‘sun-spots’, which are massive explosions or energy powered out into the solar system which comes to the Earth eventually as solar radiation.

Some of these explosions called sun spots are as big as the Earth and even as big as Jupiter. When it is exploding energy, the temperature goes up. This is what the sun spots are; you can see them here,

I think they might have a, they might have a bearing on temperature, Yeah, I think so. This is the recent sun spot cycle coming round, and all the rest of it.
And of course there are cycles where you have a sun spot cycle going round at this level of temperature, and then you have a cycle going round at this level of temperature so that as the cycles go round it is hotter or cooler in the different cycles as we pass through what we call time.

Now other planets in the solar system have been warming up. I don’t know whether you have seen them factories on Mars! [laughter] Them bloody Martians and them 4x4’s you know it’s bloody outrageous. [laughter] Now what is the common denominator with these other planets and the Earth? Ooh, I can’t work it out! It must be the Sun.

Now this is the great one “The temperatures higher, higher than it’s even been since records began”, “When did they begin?” “1862”. 1862? [laughter] that’s five minutes ago in weather cycles, what are you talking about?

Back about 800 years ago they had the medieval warm period, this is mainstream science, this is not me coming up with alternative stuff. The medieval warm period the temperature was higher than it is now.

OK. What caused the temperature to be higher in the medieval warm period than it is now> could it have been turbo charged hand carts? [laughter] What reckon? Could be.
Flatulent horses maybe? [laughter] I can just see a medieval weather forecaster arriving in the village “Dobbins’ got the wing I think we’re in for hot summer”. [laughter] And I’m mad? [applause]

After the medieval warm period, and of course, it they took back the temperatures to then,

then global warming looks very different now. But what they do is they take it back to a period called ‘The Little Ice Age’. When the temperature dropped to the point where the Thames froze over, and the used to have ice fairs on the Thames, you could still see depictions of it in Christmas cards and stuff.
It just so happens that during the medieval warm period there was a period of increase solar radiation and during the little ice age there was a decrease in solar radiation.

So if you follow the red which is the earth temperature, and the green is sun spot activity. I think there might be some connection there myself. Let’s come forward.

Again green is sun spot activity the red is earth temperature. Up to 1940 it was rising as we came out of the little ice age after the war this period included when there was a massive increase in industrialisation, therefore carbon emissions, temperatures fell from 1940 to 1975 to such an extent that the BBC were running documentaries about the dangers of the coming ice age. From ’75 it started to climb as sun spot activity climbed.

This is a scientist; I saw his presentation a few weeks ago, called Peter Taylor. Now this man is no ‘Oh the oil companies are paying him’ scientist.
He’s a former adviser on pollution and energy policy to national governments the E.U. and the U.N. and he was a lead advocate for Greenpeace. He was the man who broke the story through a Yorkshire television documentary years ago, when Yorkshire television did some really good documentaries, about the cancer clusters around what are now called Windscale now Sellafield and the connection between the two. This is what Peter Taylor a then Greenpeace advocate at one time, says about global warming: Behind the scenes there is major disagreement among scientist. I know that, people at the cutting edge of their discipline are saying ‘it’s a nonsense it doesn’t stand up’. They don’t get the platform that the song sheet scientists get. Parallel to carbon dioxide raising the solar field has increased by over 200% since 1900 and this is not factored into computer models. Global temperature is not rising as predicted; in fact it fell by a whopping 0.6° over the last twelve months as much as it had gained in the previous fifty years. Many of the apparently random fluctuations of past temperature, like when Vikings grew crops in Greenland correlate to variations of the solar electric field. Between 1983 and 2001 cloud cover, according to international satellite cloud climatology project, fell by 4%, more than enough to heat oceans and account for global warming. A spate of recent science shows that temperature oscillations are timed by solar cycles, that the jet stream is affected by the solar wind, and that past high and low points in the solar cycle correlate with past temperature swings.

And as a result of that, because we’re being lied to systematically and the Quentin Letts’ saying “It must be true ‘cause they’re saying it”, we are being scammed for vast changes in our society of a big brother nature on another massive global lie.

Temperatures been falling recently, so much so that this was a headline in the Daily Mail recently ‘Global warming could stop NATURALLY for ten years, say scientists’. (UK Daily Mail, May 1st 2008).
And you know what they said, ‘well we’ve still got to justify global warming’, they said in the same piece it said “Ooh, but imagine how hot it’s going to be when it starts again”, Oh! Right, OK. [laughter]

International law that’s what it’s about. I’m coming to an end now, but let’s look at why this is possible. This is where we come in. It’s what I call ‘Prison with the baa baas’.

It’s a prison because we act like bloody sheep. We take in what people tell us and we believe it without question, and therefore we are programmed to react as we choose to react, as they want us to react.

We’re not choosing to react, we’re reacting.
This guy, there’s some great quotes from this guy H.L. Mencken

‘The men the America people admire most extravagantly are the greatest liars; the men they detest most violently are those who try to tell them the truth’,

because people don’t want to hear the truth. [applause] People don’t want to hear the truth because the truth means we are responsible and therefore we have the power to change what we don’t like. People don’t want to feel they’re responsible, they want someone else to blame so they can sit on their arse and watch Eastenders. [applause]

This is Oscar Wilde, wonderful quote from Oscar Wilde

‘Most people are other people. Their thoughts are someone else’s opinions, their lives a mimicry, their passions a quotation.’ – Oscar Wilde.

In short, we are a world of repeaters. Where people just repeat what someone else has said as if it’s the truth without even checking it out.

And no-one should accept what I say here today, without checking it out themselves, as they can.
We have ‘teacher repeaters’, what do teachers do? They go through an education system that tells them what to think, if they repeat back on exam papers what the system has told them to believe, they progress and become teachers. They go to teacher training college, they learn more and they pass exams at teacher training college and they get told how to teach and what to teach and then they go into schools and they tell the children of the next generation what the previous generation told them and so it goes on. Repeaters, we call it education! Ha! [laughter].

We have doctor repeaters, repeating what the drug reps are telling them what they should pop us down our throats because it’s good for profits. I went [applause] I spoke years ago at the St. Marys I think it’s called St. Marys’ medical school in London too medical students, if I went across there and talked to a wall I’d probable get more response. These are kids, these are teenagers already programmed that if it wasn’t taught in the medical school it can’t be true.
We have science repeaters that come up with this stuff about global warming. And what you find from the none-repeating scientists who are challenging global warming, when they start to publically challenge it miraculously their funding for their projects disappears. So if you’re a song-sheet scientist you get well funded. Just like journalists who are describe as ‘intellectual prostitutes’, I would question the intellectual bit myself, [laughter] so are most scientists, prostituting their outcome in line with the income in terms of the brown paper package and stuff. Repeater journalists!

Anyone who is outside the bubble they’re repeating is a ‘nutter’ to be dismissed.

Repeater politicians, I love this line ‘been bent over so long they think its standing up’. [laughter]

If we had politicians that stood by their conscience, who answered to their conscience only, hand not to career massaging ‘yes sir, no sir I’ll vote this way even though I don’t agree with it because it’s good for my career’ politicians, then we’d have a decent parliament that represented the people. As it is all you have to do in a political party is control the tiny few at the top, the Cameron’s, the Blair’s, and the little few people around them, they dictate the policy and then the other mass in the pyramid in the political party, the Tory politicians, the Republicans, the Democrats, the Labour politicians they just trot through “Yes, OK I’ll vote for it”. All they have to do is decide the policy and the policies in overwhelmingly, this is how it works.
And while all this is going on big brother unfolds so fast.

“...The most dangerous man, to any government, is the man who is able to think things out for himself... Almost inevitably, he comes to the conclusion that the government he lives under is dishonest, insane and intolerable.”

~ H.L. Mencken, American Writer 1880-1956

As Mencken said ‘The most dangerous man, to any government, is the man who is able to think things out for himself... Almost inevitably, he comes to the conclusion that the government he lives under is dishonest, insane and intolerable’. And [applause] and it is to stop that awakening, that limiting the debate on big brother is all about.

Secret agenda.

The movie.
Puppet people.

Follow the white rabbit.

War is ‘peece’; get a brain ‘morans’ [laughter].
And then you can persuade people that ‘war is peace, freedom is slavery, ignorance is strength’ and you can justify this.

As fighting for peace

You can say
That this is bringing freedom

To a people from a tyranny ... 

No problem, collateral damage, it says so here. But you don’t want to see that, “Shuddup! What’s this?” “Eh what’s this ey?” “Ey, quick honey she’s going for the car!” Liberated,
“LIBERATED”

Liberated,

“LIBERATED”

Liberated,

“LIBERATED”

Liberated,
“Ey!, I think it’s terrible that Janet Jackson, she showed her breast at the Superbowl, I’m morally outraged”.

I wonder what should really morally outrage us. But we compartmentalise our minds as so many people do when they can’t see the contradiction between worrying about someone’s breast on television and some kid getting blown apart.

The two sides never talk to each other so we they can’t see the contradiction, open minds; they talk to each other so they can see the contradictions.
As Gandhi said ‘What difference does it make to the dead, the orphans and the homeless, whether the mad destruction is wrought under the name of totalitarianism or the holy name of liberty or democracy?’ – (Mahatma Gandhi). Still the same [applause]

This: Depleted uranium babies in Iraq.

Depleted uranium
All over Iraq from the weapons dropped on Iraq and that’s what it’s doing to children. But you don’t want to see that “Hey honey quick it’s the Jerry Springer show and he’s going to hit his girlfriend”.

‘Shuddup! Watch this’ go about your business everything’s fine.

It’s a mad world, yes it is.
They want to turn us into robots

And they’re doing so, and if anyone thinks that it’s not possible well...

Well it is possible it’s been done before, they just want to do it on a mass scale
This is China today, look at that, they are human beings; they could be free spirits they could be all consciousness expressing itself in this reality, and look at them. Robots! And that’s what they want us to be.

Robots

With this acquiescence, this manipulation in like the laboratory maze I was talking about constantly giving us reasons to be punished into fear. And then, I’m coming to an end now but, Again, this is part of big brother
This is really part of big brother. The human body is an electro chemical organism and if you destabilise it, electronically or chemically you stop the organism working to full capacity and part of that capacity is emotional and mental sharpness and balance and equilibrium. So the more you poor chemical and electromagnetic electrical pollution and disruptions into the electro chemical organism the more you stop that manifesting its true potential for sharp thought and balanced emotion. When you look at the graphs for the increase in the crap they put into food, chemical concoctions and cocktails, overwhelmingly though certainly not always aimed at children, and then you look at the graph of the increase in so called childhood behaviour problems they go up like they’re connected by a magnet. There is a war on our children because they are the generation they overwhelmingly have to suppress. [applause]

Aspartame is a sugar substitute, have a look at this if you haven’t come across it, it’s in virtually everything now, and aspartame is a excitotoxin they call it, it excites brain cells and destroys them, it stops the brain working efficiently. They sent letters out to naval pilots in American a few years ago telling them not to drink soft drinks with aspartame in before they fly because it effects their brains ability to think and act sharp. And who brought aspartame into existence?
Donald Rumsfeld. He was head of Searle pharmaceuticals, they couldn’t get aspartame through the food and drug administration checks in America to become part of, you know, the food we eat and drink. And so they appointed him, because he was close friends with the Reagan/Bush administration and the Reagan/Bush administration changed the head of the food and drug administration when he came in and suddenly the checks were forgotten and aspartame came out. He then sold out to Monsanto as a vast profit and Monsanto now control aspartame as they control G.M. food.

Fluoride in the water is an excitotoxin, it excites brain cells, destroys them and it suppresses thought. The first known time that fluoride was put into water supplies was in the Nazi concentration camps to keep the people docile.

Genetically modified food is designed to genetically modify us.
Vaccines’ 25 vaccinations before the age of two,

With a growing, still developing immune system.
All the stuff they give us.

Electromagnetic soup.

The rabbit hole is seriously deep. And this is so appropriate; this was said by a pastor after the Second World War talking about Nazi Germany he said
‘First they came for the Jews and I did not speak out because I was not a Jew. Then they came for the communists and I did not speak out because I was not a communist. Then they came for the trade unionists and I did not speak out because I was not a trade unionist. Then they came for me and by then there was no one left to speak out for me. (German anti-Nazi activist Pastor Martin Niemüller). [applause]

And what they are doing is picking off different sections of society while the other sections are saying “well it doesn’t affect me, not my problem” and eventually enough sections are picked off for those that were looking the other way to be picked off also. That’s how it is, divide and rule, not my problem, well it IS our problem

‘Injustice anywhere is a threat to justice everywhere’ Martin Luther King. Absolutely it is [applause]

And what we need to do is stop making excuses
“Oh I don’t know what the worlds coming to”, well do something about it then mate! Alright? You know, the power is with us. Take it on a basic level. What we need is a mass none co-operation, none violent process of none co-operation with that which wishes to enslave us. When someone gets fined for putting a wheelie bin out, if thousands and thousands of people put their wheelie bin out on the wrong day every week, every week until the laws changed finished. [applause] Injustice anywhere is injustice everywhere potentially cause next time it’s going to be us.

And it’s a house of cards this, it’s held together, the power that is used to enslave us is the power we give to the enslavers every day. They don’t have power, they have our power and we give it to them. [applause] It’s time to take it back.

And by that it means unity. So we might have a different religion or no religion, so we might be a Jew or a Muslim or a Christian or you might be black or white or sky-blue bloody pink. This is not a big brother global agenda to enslave Jewish people or to enslave Islamic people or to enslave white people middle class. It’s a global agenda to enslave all of us. And if we don’t unite and we go on being divided and ruled then they will enslave all of us. If we unite, get rid of the nonsense fault lines of manufactured division. And then, and then through unity of response and none co-operation with our own enslavement they will not be able to do this. [applause]
The key is to free our minds. We see the world like this; we need to see then “Oh God! Look at it”. Free our minds. Einstein said

‘You cannot solve problems with the same level of consciousness that created them’ – (Albert Einstein)

And that’s what we do; we have a political consciousness which comes in under a Labour name or a Republican name. And then they are replaced by the same political consciousness called Conservatives or Democrats and nothing changes because the same level of consciousness that created the problem has come in to carry on creating the problems. We’ve got to go to another level of consciousness beyond this nonsense beyond this playpen. [applause]

As Gandhi said ‘You must be the change you want to see in the world.’ – (Mahatma Gandhi)
We are the world, what else has created the world that we are looking at? We have or we’ve allowed it to be created in our name.

‘There is no path to peace. Peace is the path.’  
( Mahatma Gandhi )

We’ve got to stop fighting each other before we’re divided and ruled into total enslavement and Martin Luther King said this

‘Cowardice asks the question – is it safe? Expediency asks the question – is it political? Vanity asks the question – is it popular? But conscience asks the question – is it right? And there comes a time when one must take a position that is neither safe, nor political, nor popular but one must take it BECAUSE it is right.’  
( Martin Luther King ) 
[ applause ]

And we are there now [ applause ] you know, when someone said to me what would change the world quicker than anyone else, I would say this, or anything else it would change overnight if we did this cause everything would come from it. If we stopped making decisions about our actions based on what is right for us in the moment and started doing what we knew to be right by conscience and justice this world would transform. This world has been created as we experience it by billions of people deciding every day ‘What do I do in the interest of me’. Once we start saying what I do in the interest of justice, fairness and my own conscience actions change, the world changes and we are in control of that. [ applause ]
And we are, we are at a fork in the road now, ’cause big brother’s on a motorbike now. This is not the totalitarian tiptoe anymore this is the totalitarian sprint and we have one last chance to open our eyes and open our minds and start getting involved and doing something about this, because you know, there’s going to come a time and it ain’t to long from now when we’re going to have to look our children in the face, in the eyes and we’re going to have to answer the question without blinking, without averting them “What were you doing daddy, mummy, grad-dad, grandma when the fascist state came in that now controls every facet of our lives including our thoughts, what were you doing when it came in?” Now for all my ills and the rest of it I won’t have to blink, how many other people will be trying to look the other way? We have a chance now, still not to be in that position. Because I’m 56 what have I got left, 10 years 20 years bit longer maybe? The young people today, the kids today the grandkids today, they’re going to have to live their entire life in what these madmen want to introduce and are in the process of doing so, so fast, we owe it to them if not to ourselves not to leave them the design that these people have been working towards for so long. We need to get involved. And if we do in a united way, the power they are using to enslave us will be gone.

Thank You. - (David Icke).

David’s new book triggers a storm of interest

The David Icke Guide to the Global Conspiracy (and how to end it)

Click book to order
In this two-hour presentation at the famous Oxford Union at Oxford University, David Icke encapsulates humanity's current plight and how we can secure our freedom from the Hidden Hand behind global events. It is designed to be a simple introduction to the staggering revelations that he has long exposed in detail in his books. If you want to know what is really happening in your world, and why, this is not to be missed. Your freedom and that of your children and grandchildren could well depend upon it.

*Particularly recommended for people new to this information or to show friends and family to introduce them to the bigger picture.*

*(David was speaking to highly intelligent Oxford students, so he had to keep it real simple.)*

United Kingdom
Please note: Ordering direct from David Icke Books is a great contribution to the expansion of this work of communicating suppressed information fundamental to human freedom. It is a constant financial challenge to keep going and buying from some other sources, especially pirated versions, threatens our ability to keep the books in print and publish new ones.

Anyone selling my books as e-books is doing so illegally and keeping all your money for themselves, the same with pirated books or tapes. They are taking everything you pay them while making no contribution either to the work or to those who have committed their lives to helping people find true freedom and need the income from the books to make new ones possible.

Thank you,

David
