Fifty reasons to leave the EU

We joined the EU in 1972. After 35 years inside we now know:

1. The European Union has the constitution of a dictatorship.
2. The EU has the laws of a police state - which will be enforced after the sixth treaty is signed.
3. The EU's 111,000 regulations will bring us a soviet style command economy and abject poverty.
4. Unelected EU dictators will control the nuclear weapons of former nations of Britain and France.
5. The EU’s Constitution will compel us to hand over all our armed forces to the EU.
6. Our armed forces and police have been told they will swear a new oath to the EU, or be fired.
7. Its 111,000 regulations will rigidly control our personal lives - more so than any nation in history.
8. EU regulations now cost us £100 billion a year. (Better Regulation Commission annual report 2005)
9. When enforced, those regulations will destroy hundreds of thousands of small businesses.
10. Millions will be unemployed after EU regulations close small businesses.
11. The 111,000 regulations will make us subject to continual arrest (SOCPA 2005).
12. There are now 3,095 "Crimes against the EU state" on the British statute book.
13. We will be stopped on the street for continual checks on our EU ID cards from 2009.
14. The EU Constitution will replace the British Constitution (currently planned for May 2009).
15. Under the EU Constitution, there is no place for the Westminster Parliament, which will go.
16. The EU's Road Pricing and then ID chips will keep the state informed of our exact position.
17. Huge taxes/fines by the EU's Road Pricing, Congestion Charging and global warming policies.
18. The EU Regionalisation Plan will abolish our 48 counties in favour of 9 EU regions.
19. The 9 EU regions will report direct to Brussels, not to Westminster, which will be defunct.
20. The EU Regionalisation Plan will abolish our 19,579 councillors.
22. 1,000 deaths in police custody since 1992 and no prosecutions.
23. Police have shot 30 innocent people dead since 1992 with no successful prosecutions.
